Streams of Education 18

About this Boo and Author

Among the topmost priorities of parents in India who consul astrologers is the type of education of girl or boy would pursu o should pursue. In western countries there is psychological counsellin for this but it is not known how useful and effective it has bee i terms of finding out not merely right aptitudes but in predictin wha educational line a student would take. Psychologists are not predictor and in western astrology there is no predictive techniqu an it nothing like the vast repertoire of techniques as we have in Hind astrology.

In ancient India, astrologers were consulted for such educationa counselling perhaps as can be guessed from the hints given in *Jaimini Sutras.* Some hints-available are not about the education one woul receive but about what would be professional inclinatio o a individual. From this we can infer that before joinin suc a profession one may get a training suitable for such a professio o even modern professional education.

Fifth from Karakamsha for Education

In Jaimini the Karakamsha lagna and the fifth from it is taken fo education and different planets in KL or the fifth from it sho th type of education one would receive. It should be kept in the min that the subjects mentioned here for ancient times when educatio meant learning mostly *Mimamsa, Vedanta, Nyaya* etc. Takin a hin from Jaimini we can adapt it for modern times.

Jaimini Sutram ofP.S. Sastri (page 82)

These planets may be together or separately.

103. शुक्रेण किंचिदूनम्॥

When Venus is so placed, one becomes an ordinary author Th Moon must be with Venus.

104. बुधेन ततोऽपि॥

If Mercury is so placed, one is an author of lesser importanc than in the case of Venus. The Moon should be with Mercury.

105. शुक्रेण कविर्वाग्मी काव्यज्ञश्च॥

If Venus alone is in Karakamsa or in the fifth from it on becomes a poet, an eloquent speaker, and a good critic of literature

106. गुरुणा सर्वविद् ग्रन्थिकश्च॥

When Guru is in Karakamsa or in the fifth from it, one has an all-round knowledge, well-learned in all branches, and become i author.

107. न वाग्मी॥

Jupiter in the karakamsa or in the fifth does not make on a eloquent speaker.

108. विशिष्य वैयाकरणो वेद-वेदांगविच्च॥

But Guru thus placed makes one particularly a grammarian a scholar of the Vedas (Scriptures), and a scholar in philosophy-i Vedanta.

109. सभा जड़ शनिना॥

If Saturn is in Karakamsa or in the fifth, one becomes nervou in speaking before or in facing an assembly.

110. बुधेन मीमांसकः॥

Mercury in Karakamsa or in the fifth house makes one an exper in Mimansa.

We have seen that these book talk about *Mimamsa, Vedanta, Nyaya*. The results as indicated by the planets are to be interprete now in the light of changing/prevailing environment. This ca b derived carefully by studying the combination and effects of differen planets and/or the respective houses, viz., 2nd and 5th for education The 3rd house also reveals something valuable.

Moon or Jupiter gives to an author all round knowledge

But Jupiter in such a place makes one a grammarian, a schola of the Vedas (scriptures) and a scholar in philosophy of Vedanta

Venus makes ordinary author, poet eloquent speaker.

Mercury makes ordinary author. But makes one an exper i Mimansa.

Mars makes scholar in logic and epistemology.

Sun makes one a scholar in philosophy of Vedant an a musician.

Ketu makes one a Mathematician.

Jaimini Scheme

The Jaimini scheme for seeing education and the training on

will have thus, will have to be seen from —

1. Karakamsha lagna, the second house and the fifth house
2. Each planet will to be seen in modern context, as *Mimamsa, Vedanta, Nyaya, Yoga* etc. are not among the popular subject these days.

Parashari scheme

What is to be seen from the fifth house is explained by *Maharshi Parashara* as

Yantram, Mantram, tatha VIDYAM etc.

यन्त्र मन्त्रौ तथा विद्यां बुद्धेश्चैव प्रबन्धकम्।
पुत्रराज्यापभ्रंशादीन् पश्येत् पुत्रालयाद् बुधः॥

Note: Parashara nowhere suggests that the fourth hous i t be seen for education.

South Indian scheme

South Indian astrologers see education from the fourth house

Using Nakshatras

Using nakshatras sometimes gives very valuable clue t th type of education one will have.

Some work in this direction was done by student an i continuing as can be seen from the following.

Reproduced from the journal of Astrology (October-Decembe 2001 page 66)

To work in any direction, it would be necessary to understan fe basic facts to avoid future complications. And we would be doing th same to place everything in correct perspective. As far as educatio i concerned, 2nd house may be attributed with 10% of the total attributes 4th house has to be honoured with 30% and 5th house with 60%. Here lies a great difference between the North and astrologers from the Souther part of India who considers 4th house being the house for education vis a vis the role of 5th house in Northern India. Indepth study has finall established the attributes of the houses described above and we shal proceed on such premises.

2nd house

2nd house and 2nd lord is the determinant of the beginnin o learning at home and w^hin the family. A mother reigns suprem i that environment, the supreme guru who undertakes the responsibilit towards an orientation programme, so that the child can face the worl

squarely. Her influences remain supreme throughout the life of th person.

4'' house

Whereas the 4'' house indicates home atmosphere conducive fo learning or negates it. This is an important aspect because unless and until the home atmosphere is conducive, there can not be any successfu follow up in the field of education. 4'' house guides the student toward the type of learning. That is why a thorough examination of the 4 house and 4'' lord indicates the type of education.

5'' house

As indicated earlier 5'' house has the total attributes of 60% an rightly so. The 5'' house is the creative faculty. Therefore carefu examination of 5'' house and 5'' lord and its connection reveal the wealth of knowledge.

Navamsha

For arriving at a definite conclusion the role of navamsha can no be overlooked. Therefore look for the following

Navamsha position of the 5'' lord.

Lord of navamsha rashi of Mercury and its placement.

5'' lord of navamsha and its relationship.

Karakas (Significators)

Natural progression for examining any particular aspect need precise examination of the significators.

Jupiter Main significator for education. Strong and well place Jupiter in kendra or trine/5'' house or with the lord of 5'' house leads to an excellent education.

Mercury Similarly the Mercury's condition and its good connection will lead to good education.

And finally it is the lagna and the lagna lord who hold the key of everything in life including education. Bad health will never allow any one to proceed smoothly in the path of education."

—

Finally, do not become complacent because educational pattern have been changing decade after decade.

Some guidelines about the type of education can be got fro the table given here, *(refer table 1)*

The scheme

The scheme consistently followed in this book is first look at:

1. The fifth house and fifth lord and planetary influences on them
2. Then concentrate on the nakshatra in which the fifth lor i placed.
3. If some hints are available from the fourth house as south India astrologers, do that also.
4. Repeat this exercise by looking at the navamsha, particularl a the planetary influences on the fifth house and the fifth lord.
5. Now confirm the results by examining the first, second and fift houses from Karakamsha lagna.

Remember to put the navamsha of the Atmakaraka in the birt horoscope and treat that as Karakamsha lagna.

The dasha scheme

The dasha mainly being used is the Vimshottari mahadash supported by

1. Jaimini's Chara dasha
2. Specific nakshtara dashas of Parashara like Dwisaptat Sam Dasha and Chatursheeti Sama Dasha.
3. If Yogini dasha gives any hint make use of it.

Note: The Chaturvimshamsha chart or the 24th division o th horoscope should be used only if the birth time recorded and bein used in this research is accurate. Here each division is one degre and fifteen minutes which makes it a very delicate instrumen fo research. If there is a difference of even half minute in a horoscop particularly in the case of crucial planets for this research, it can lea to serious to ordinary error in many cases.

Note: The most challenging research these days is to se tw main subjects one studies and makes a career. For instance, a perso may do engineering and later do economics and land a big job in th World Bank on the basis of his qualifications in economics and ma not pursue engineering career at all.

Note: There are cases of Indians in USA who have don thei education in medicine and later giving it up took to sale and purchas buildings after doing a diploma in estate management

But in this book we are concentrating on the one main cours o study which most of us do and pursue one career throughou til retirement.

There are talented students who have done well in two subject like say economics and sitar and have had a difficult choic i

choosing a career.

Give here are two instances, one of an Indian woma an another of a Russian boy.

Role of Mahadasha

In all the studies, the role of mahadasha is most importan because if one gets good mahadasha at the time of education onl then good success leads to the making of a good career.

We are taking those cases mostly.

Multiple dashas

In making use of mahadashas, we can use more tha on mahadasha and cross check them for a sound prediction.

Many yeas ago, before I fell sick in 2000, I found Naval Sing studying in one of my research classes the brightest th mos creative showing that rare spirit which a moder astrologica researcher has to have to question the validity of som o th principles given in our astrological texts, in the books of famou astrologers, including mine, to modify, change, modernis or eve challenge them.

How education is to be seen is given in different books whic Abha Sharma a bright woman astrology researcher has compile here.

When the rasi representing the 4th bhava is occupied by its lor or is either aspected by or associated with a benefic planet th person born will be amiable for his learning and humility.

The same will be case when Mercury is the strongest.

But, if the lord of the fourth bhava occupy a dusthana o associated with, or aspected by a malefic planet, th perso

The same will be the result when lord of fourth hous is i a malefic rasi. Page 766 (shloka 61)

Second Classic : Maansagari by Pandit Seetaram Jha

Seeing Education as per Maansagari, the astrology classic, Page 89

Education is seen from 5th house. Managemen of wisdom strategy ("Neeti"), "Mantradhan", etc. should be seen fro fift house.

Politeness, proficiency in poetry, Mathematics th Vedas artistic pursuits, purity of mind, etc. should be seen from Mercury Page 462

Oratory skills, clarity of speech (Vaakpatu), knowledg o vedantas, etc. should be seen from Jupiter. Page 462

Music, literary happiness, dancing skills, playing of instruments humour, education and strength should be seen from Venus. Pag 462

From this summary of Abha, it should be clea tha th emphasis is on the fifth house for education.

Among the students in our research classes we have many wh have brilliant predictive ability and some who have superfin talen for research in astrology for the modern world in which we live. Naval Singh always stood out even as a researcher in the class I was taking I asked him to carry forward a half done research of mine.

The need to have an intensive focus on various educationa choices in India is much greater now in the twenty first century tha it was ever before. From the eighties of the twentiet century technical education has slowly been becoming a good choic fo ambitious students. It began to move faster in the ninetie whic coincided with Indian prime minister, P.V. Narasimha's, wise decisio to liberalise Indian economy. The largest credit for the boomin economy India boasts of now is largely or solely the result of the wis economic policy of P.V. Narasimha Rao. With that, the boom in th growth of technical educational institutions was an inevitabl consequence. I became aware of it as many of my friend an colleagues asked me about the choice of educational courses for thei children and asked me to predict. I struggled hard, ha goo percentage of success and evolved the table showing planet wise th nontechnical, semi-technical and technica educatio whic Naval Singh has used, with some modification, in this book.

I tested it time and again and got more than seventy percen correct results. But I thought that it should be develope mor b some astrologer who had his education in science as 1 bein a hundred percent student of humanities, encountered some difficultie in detecting some neat distinctions between differen type o technical education.

I carried on this research and was teaching a research class thes parameters when Naval Singh came to attend a class of mine an

accidentally discovered that he could continue from where 1 coul leave off. I handed over the class to him for further research and h not merely produced finer astrological combinations but produce this book which is most valuable and most original one ever in thi field. The table used here has been published earlier in the issue of the Journal of Astrology (Oct-Dec. issue of 2001).

K.N. Rao.

Preface

The story of this project began with a researc clas o Shri K.N. Rao which I attended on 24.09.2006. In the research clas Shri Rao demonstrated the techniques/probabl parameter fo career in naturopathy and some of the research student hav als presented case studies on this basis. After completion of presentatio by research students, Shri K.N. Rao took a chart from hi ow collection and explained the educational pattern of a bo usin Vimshottari dasha. The boy was having some obstacle i hi education and he was not taking interest in the studies. Shri Rao ha indicated good education for the boy and also prescribed a Saraswat mantra to be recited 108 times daily so that the bo coul concentrate on his studies. Later, as told by Shri K.N. Rao, h ha completed his education and did a course in Floriculture fro a foreign country. Shri Rao also explained the role of Jupiter i th study of Biology. He said that Jupiter is Jeeva and whenever it come under the influence of technical planets (Mars, Saturn, Rah an Ketu) in a chart, it provides inclination to study Jeeva-Vigyan (Biology) but Jupiter has to have some relationship with the educatio givin houses. From the days of my study and research in astrology i hav the habit and deep thrust to check the applicability of principles an parameters being taught in the classroom.

After completion of class, on the same day, when 1 prepare t move out of the Bharatiya Vidya Bhavan, one of our Jyotish Alanka students met me at the exit point of the Bhavan and requeste me t read his chart as he wanted to take some astrological tutelag for hi research work. 1 asked him to give his birth details and told him t contact on Monday. He rang me on Monday for astrologica guidance at about 11:30 AM. Immediately 1 switche o m computer and calculated his chart. When 1 looked into his horoscope what 1 found, was unbelievable. He was then running the mahadash of Jupiter, his fifth lord, placed in the seventh (Taurus sign) an i aspected by the Mars. In navamsha chart, Jupiter is again the fift

lord, placed in own house and is aspected by the Saturn. Instantl I asked him "Are you doing research in Biology or Biotechnology? H said, "Yes, 1 am pursuing Ph.D., in Biotechnology at Indian Institut of Technology(IIT), New Delhi." For a bit of time, I kept silence an could not do anything except to remember Rao Saheb and sai t myself God! After that I wrote an article for the Journal of Astrolog under the title "A Study in Biotechnology" using the horoscop o this research student as case study. His horoscope is as under -

After completing the July 2006 research session, Shri K.N. Ra

asked me to conduct a research on educational counsellin an career pattern with the help of the same research batch tha wa taken by him. In the beginning of the session in January 2007, a tabl was provided to me by Shri Rao for research guidelines in educatio

which was devised by him after a long research and experienc an has also been published in the *journal of Astrology,* fea 200I October - December Issue. My research is based on the parameter and table given by Shri Rao. I have modified this table after studyin number of charts and the modified version of this table is given i Table - I.

In this research work, I have applied the same parameter a given by Shri Rao in his book "Astrology, Destiny and the Wheel o Time" for educational and career counselling. The parameter ar based on the study of 5th house, the house of education an ar

The ongoing parameters have been applied on the birth an navamsha charts only to decide the educational pattern However Maharishi Parashara has prescribed the role of Chaturvimshamsh chart for education. This chart can only be used where time of birth noted is 100% correct. Keeping in view this aspect, in the majority of horoscopes, I have confined myself to use the birth and navamsh charts along with Vimshottari dasha for deciding the educationa pattern. This chart has also been used by me in some cases wher time of birth is 100% correct.

This book is designed in six sections viz. Physical Sciences Engineering and Technology, Biological Sciences, Medical Sciences Management and Education Abroad. A chapter of th fourt sections of this book i.e. Doctors - education about disease i written by Dr. Vishal Wadhwa, an allopathic doctor.

Mathematics

Mathematics is the knowledge, which focus on the concept such as quantity, structure, space and change and also the academi discipline that studies them. Mathematics evolved from counting calculation, measurement, study of shapes and motion of physica bodies. Earlier, the major disciplines with mathematics arose ou o the need to do calculations in commerce, to understan th relationship between numbers, to measure land, and to predic th astronomical phenomenon. Now a days, mathematics is found in al the sciences, computers, imaginary abstractions. There are three majo disciplines of mathematics i.e. Pure Mathematics Discret Mathematics and Applied Mathematics. Many branches of applie mathematics have now merged with other related areas and becom independent disciplines, which includes *statistics, operations research* and *computer science.*

Discrete mathematics is generally found to be useful in *theoretical computer science,* which includes computability theory, computationa complexity theory and information theory.

I am now describing the major disciplines of applied mathematic that will help the readers in understanding the signification of planet to be applied while analysing the horoscope. These are *mathematical physics,* mathematical fluid dynamics, numerical analysis, optimization probability, *statistics, mathematical economics, ' financial mathematics,* game theory, mathematical biology, cryptography *operations research* etc.

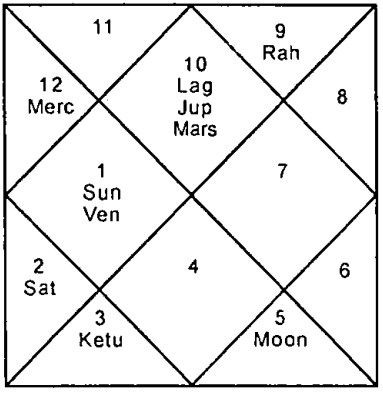
Let us now refer to the table - 1 given by Shri K.N. Rao and se the significations of Sun. They are as under: -

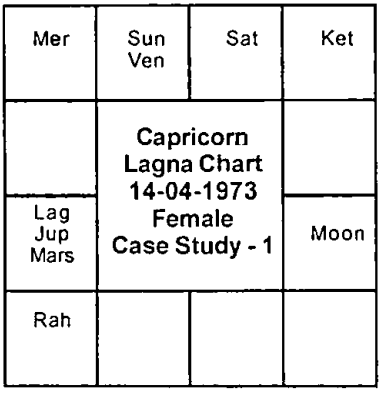
Liberal	-	Political Science
Semi Technical	-	Statistics, Astronomy and Actuary
Pure Technical	-	Mathematics and Physics

If we keep in mind the various branches of mathematic a referred above and observe the ensuing case studies carefully w shall find, "how logical is Shri Rao's observation about signification of the Sun for studying mathematics and physics". Let us take a cas

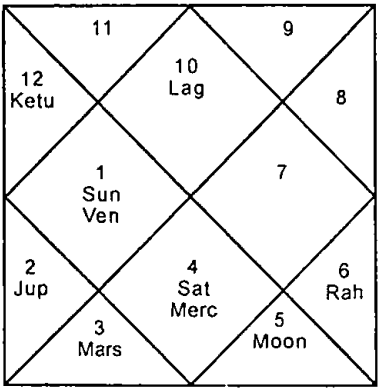
study of a woman born on 14th April 1973 at 01:18:00 hours (IST), Lucknow (India) to confirm the applicability of the Sun's signification She has exalted and has vargottama Sun in her horoscop an completed her studies (graduation and post graduation) in mahadash of the Sun.

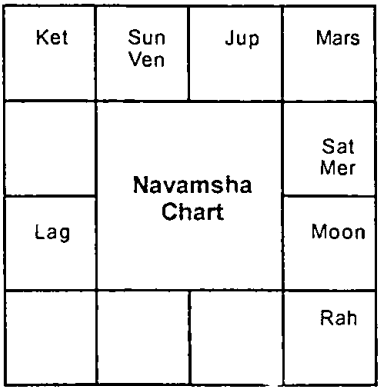
In birth chart, 5th house is occupied by Saturn and is aspecte b the debilitated Jupiter. 5th lord Venus is placed in the 4th house, in th nakshatra of Ketu, in the sign of Mars and is aspected by the exalte Mars. Venus is in deep combustion with exalted and vargottam Sun. Venus is also vargottama. Fifth house and fifth lord Venus come under the influence of technical planets i.e. Mars, Saturn, Ketu excep the aspect of Jupiter. From Mercury, 5th house is aspected by the Sat Mars, Jupiter and 5th lord, the Moon is placed in the sign of the Sun in the nakshatra of Venus. The Moon is also vargottama. In Navamsh





Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
03° 09'	00° 15'	15° 53'	19° 15'	02° 57'	15° 19'	01° 17'	23° 12'	17° 45'



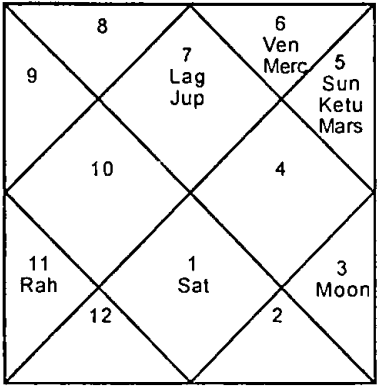


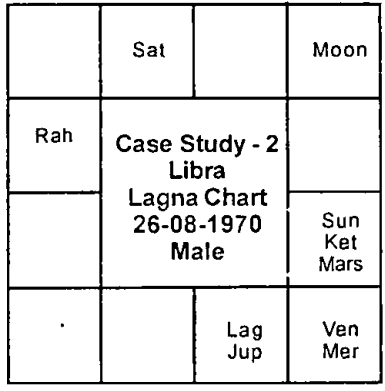
chart, 5th house is occupied by Jupiter. 5th lord, Venus is again place in the 4th house, in the sign of Mars, in association with the Sun an is aspected by Saturn. Venus again comes under the influenc o Mars, Saturn, and the Sun. Mars and Saturn are know a th technical planets. She also got the mahadash of exalte an vargottama Sun when she joined graduation in June/July, 1990 This is the perfect combination for studying mathematics physic o statistics. But she joined the B.A.(Political Science, Hons.) in the dash of Sun/Mars/Venus and M.A.(Political Science) in June/July 199 i the dasha of Sun/Mercury/Sun. Here Shri K.N. Rao is correct; he ha indicated political science under Sun's signification. Now we hav t find out the role of supporting planet along with the Sun for studyin mathematics, physics or statistics. In astrological classics, we find th role of Mercury for mathematical ability. Here in the birth chart Mercury is debilitated and is not associated either with 5th hous o 5th lord of education, Venus. In navamsha chart, 5th house or 5th lor is also bereft of the association or aspect of Mercury. That's why sh could not study mathematics, statistics or physics in the dash o strong Sun. The aspect of Jupiter on 5th house in birth char an placement of Jupiter in 5th house of navamsha char an th mahadasha of Sun promoted her to study the Political Science in th presence of weak and unhelpful Mercury. She topped the colleg i graduation and postgraduation respectively as she has vargottam fifth lords both from Lagna and Mercury. She wanted to do researc but the next dasha of Moon, her vargottama seventh lord eventuall she got married and settled as housewife.

From the above study, it is learnt that Sun ne&ds the help of Mercury for study of Mathematics.

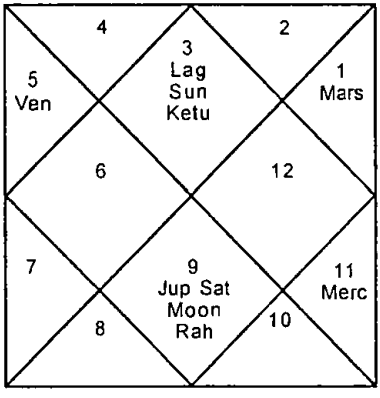
Case Study - 2

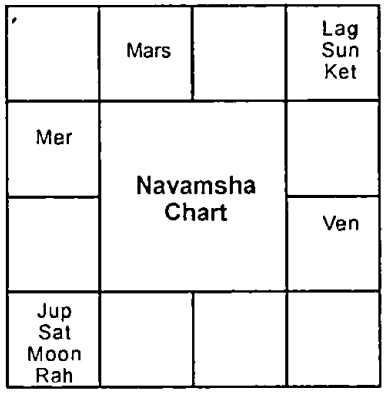
The person was born on 26th August 1970 at 11:32:00 hours(IST) a Itawa. He completed his study upto 12th standard in the mahadasha of Rahu and completed 11th and 12th classes in Rahu/Mars with science subjects (Maths Group). He joined B.Sc.(Mathematics, Hons.) in June, 1988 when he was running the dasha of Jupiter/Jupiter/Saturn. This is the period of Dasha Chhidra and it has some special significance in the study of this person. He lost interest in studying the Science subjects in December, 1988. In 1989, he changed from Science to Arts stream and chose the subjects English, Hindi, Economics and ***Mathematics*** *in B.A. He continued with Mathematics in Arts stream also and completed his B.A. in 1982. Let us analyse his chart.*

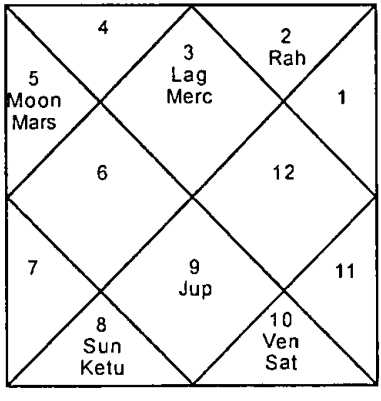


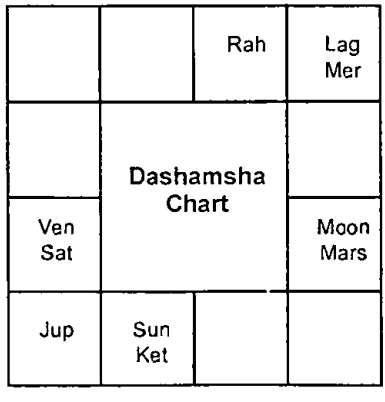


Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
26° 43'	09° 08'	07° 05'	01° 29'	03° 48'	08° 05'	25° 09'	29° 05'	09° 22'









In birth chart, 5th house has Rahu in own nakshatr an i aspected by the digbali Jupiter, powerful Sun and Mars. 5 lor

Saturn is placed in the sign of Mars, in the nakshatra of Sun an i aspected by Jupiter. From Mercury, Saturn is again the 5t lord Mercury is placed in its sign of exaltation and is in the nakshatr o Sun. In navamsha chart, 5th house is aspected by the Mars. 5th lor Venus is placed in the sign of Sun and is aspected by Mercury an Jupiter. The connection of powerful Sun, Mercury and Mars with 5 house or 5th lord in birth and navamsha charts was responsibl fo opting Mathematics as one of the subjects in B.A.

Now see the role of dasha lord, Jupiter. Jupiter is placed in lagn of birth chart, is aspecting the Rahu (placed in fifth house), 5th lor Saturn and 10th lord Moon (in Gemini). The presence of Rahu-Ketu axis along 5th-1 1th houses is one of the major factors for studyin languages in the dasha of benefic Jupiter. In navamsha chart, Jupite is placed in own sign with Saturn, Moon and Rahu and is aspectin the fifth lord Venus, Sun, Ketu and Mars. The connection of benefi dasha lord Jupiter with Sun, Mars and Ketu in presenc of stron Mercury is a combination for studying languages, economic an mathematics.

He joined government service as Clerk on 2nd June 1992 befor the announcement of result of B.A. (final year). During the dash o Jupiter, he also became Junior Accountant and was subsequentl promoted to the rank of Accountant. Jupiter is aspectin th 10 lord, Moon in birth chart. Jupiter is 10th lord of navamsha chart and i placed in 7th house (Sagittarius). Jupiter is again 10th lord of dashamsh chart and is placed in seventh house and is aspected by Mercury from Lagna, the own house of Mercury. See the influence of Mercury an Jupiter on lagna in dashamsha chart of this person for caree i accounts and finance. *Shri K.N. Rao in his Book "Dips Into Divinity Astrology History" has written about methods of late D.V. Subha Rao, a great astrologer for karma motivations in any horoscope based on influence of planets on the lagna and the lagna lord, the 5th and 10th houses and their lords of the dashamsha chart.* I hav use thi method of late Subha Rao with some modifications and variations for determining career pattern in number of cases and found workin perfectly.

This is the story of this person, started with study of Science then Arts with Mathematics and finally the career in account an finance. Can it be possible to explain these types of changes in caree by any method or any other science known to us? Only Hind Astrology can make it possible.

In view of ongoing case studies, it is found that the Sun is th

main planet for studying higher Mathematics that come unde technical umbrella. Mercury (karaka for intelligence and mathematica ability) and Mars (a technical and karaka for Logic) will b th supporting planets. Let us check the role of Sun with Mercury an Mars for studying higher Mathematics in the ensuing case studies

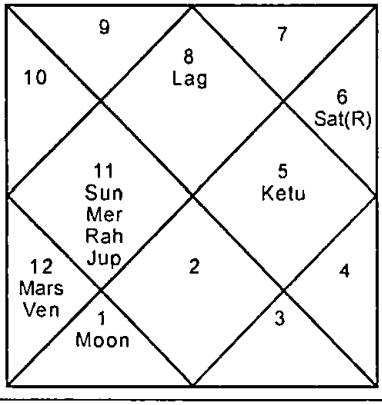
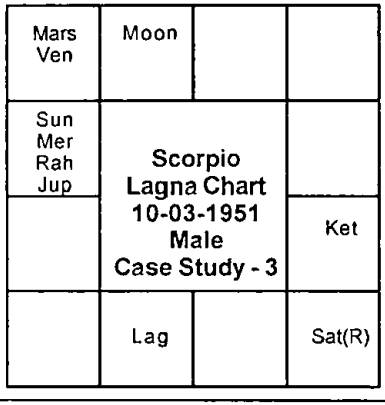
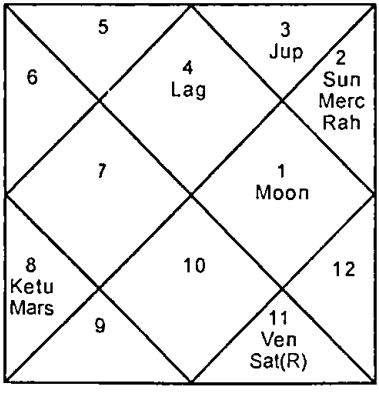
The person was born on 10th March 1951 at 22:30:00 hours(IST) a Hoogly. He joined B.Sc.(Physics, Chemistry, Mathematics) in 1967 and then M. Sc. (Mathematics) in 1969. He joined government service in February 1973.

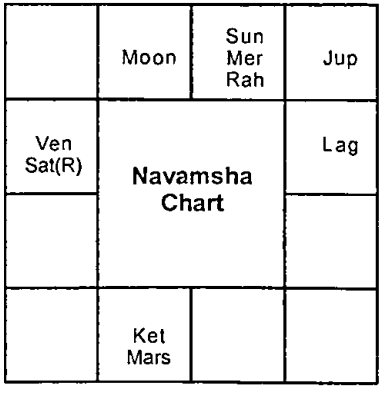
In birth chart, 5th house is occupied by exalted Venus and Mar and is aspected by the Saturn. Venus is in the nakshatra of Mercury Mars is in the nakshatra of Saturn and Saturn in the nakshatra of Sun.





Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
01° 46'	26° 08'	00° 16'	13° 36'	25° 29'	26° 55'	23° 44'	06° 30'	25° 50'





Fifth lord, Jupiter is placed in the 4th house, an airy sign of Saturn Jupiter is associated with the Sun, Mercury and Rahu. Jupiter i i deep combustion with the Sun. Thus Jupiter lost his significatio i favour of the Sun. Also see the degrees of planets associated with 5 lord, Jupiter. They are placed almost in one-degree differenc wit Jupiter. Fifth house from Mercury is Gemini, a sign of Mercury and i aspected by Mars. Fifth lord from Mercury is Mercury itself and i combust with Sun.

In navamsha chart, 5th house is occupied by its own lord, Mar and is aspected the Sun, Mercury and Saturn. Thus, the commo planets are Sun, Mercury, Mars and Saturn. Out of which, the Sun i dominating. The role of Sun with supporting planets i.e. Mercury an Mars comes into play prominently in birth and navamsh charts Hence the education has to be Mathematics and Physics. The presenc of watery in the fifth house from lagna in birth and navamsh chart also gives indications towards chemistry; however, he wa mor interested in Mathematics than Chemistry. He studied chemistr as a compulsory subject available with the group.

He joined B.Sc.(Physics, Chemistry and Mathematics in 196 during the dasha of Venus/Rahu/Venus. Mahadasha and pratyanta dasha lord, Venus is exalted in fifth house and is in nakshatr o Mercury. Venus is associated with Mars and is aspected by the Saturn Antardasha lord Rahu is associated with Sun, Mercury and fifth lord Jupiter. In navamsha chart, mahadasha and pratyantar dash lord Venus is associated with Saturn and is aspected by the fifth lord Mars and ninth lord, Jupiter. Antardasha lord Rahu is associated wit Sun and Mercury in eleventh house and is aspected by the fifth lord, Mars. ***Notice the connection of antardasha lord, Rahu with Sun, Mercury and fifth lord in birth and navamsha charts under the influence of technical planets Mars and Saturn for studying mathematics and physics.***

He joined M.Sc.(Mathematics) in 1969 during the dash o Venus/Jupiter/Venus. The role of Venus has already been discussed In birth chart, antardasha lord, Jupiter is fifth lord placed in Aquarius an airy sign of Saturn and is associated with Sun and Mercury I navamsha chart, Jupiter is ninth lord placed in Gemini, an airy sign o Mercury and is aspected by fifth lord Mars. ***Antardasha of fifth lord, Jupiter connected with Sun and Mercury in birth chart and Mars and Mercury in navamsha chart is an excellent period for higher studies in mathematics.***

This case study confirms the role Sun for studyin highe

mathematics.

Observations

Tenth lord jupiter from the mahadasha lord Venus is associate with the Sun and Mercury within one-degree difference. Thus it ma have some relevance for studying mathematics. We may confirm it in ensuing case studies.

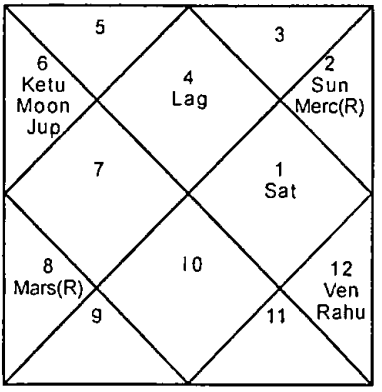
This woman was born on 28th May 1969 at 09:55:00 hours(IST), Coimbatore. She joined B.Sc.(Physics, Chemistry and Mathematics) in June 1986 and then M.Sc.(Mathematics) in June 1989. She joined government service as computer programmer after completing PG Dip. in Computer Science.

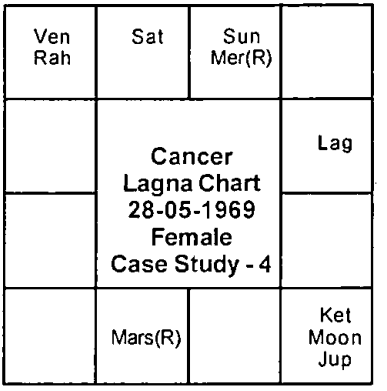
In birth chart, fifth house from lagna is occupied by its lord Mar who is in nakshatra of Mercury and is aspected by the Sun an Mercury. The Sun gets exaltation sign in navamsha chart and Mercur is vargottama. Therefore, the influence of Sun comes into notic prominently and the influence of Mars and Mercury will suppor th Sun in studying Mathematics. Fifth house from Mercury has Jupiter Ketu and Moon and is aspected by Venus. Jupiter gets debilitatio sign in navamsha chart while Moon and Venus are vargottama The have to improve the quality of fifth house from Mercury. Fifth lor from Mercury is Mercury itself and is associated with powerfu th Sun and is aspected by the Mars. Thus the role of the Sun wit Mercury and Mars comes into play again.

In navamsha chart, Fifth lord, Saturn is placed in tenth house i the airy sign of Mercury and is aspected by Mars while the Sun i placed in the sign of Mars, Aries(its exaltation sign).

Summing up the influences, role of Sun come int pla prominently with Mars and Mercury. Thus the education has t b Mathematics and physics. The presence of watery sign in 5th hous from lagna and presence of vargottama Moon in 5th hous fro Mercury also gives indications towards Chemistry. Sh studie Chemistry as a compulsory subject available with Mathematic an Physics but her inclination was to study Mathematics. That's why sh did M.Sc.(Mathematics) after completing B.Sc.(Physics, Chemistry an Mathematics).

She joined B.Sc. in June 1986 during the dasha of Rahu/Venus Sun. Mahadasha lord Rahu is placed in the ninth hous wit antardasha lord Venus and is aspected by the ninth lord Jupite an





Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu

Ivargottama lagna lord Moon. This is an excellent combinatio fo study. Venus is in nakshatra of Mercury. Mercury is associate wit

Sun and is aspected by the fifth lord Mars. Pratyantar dasha lord Su is placed in the 11th house with Mercury and is aspected by the fift lord Mars. In navamsha chart, Rahu is placed in Leo, sign of Sun Venus is ninth lord and is aspected by Mars and Saturn. The Sun i exalted. Thus navamsha chart repeats the story of birth chart.

She joined M.Sc.(Mathematics) in June 1989 during the dash of Rahu/Sun/Venus. Role of dasha has been explained above ***Notice the importance of the Sun, antardasha lord for studying Mathematics.***

This case study confirms the role of Sun fo studyin mathematics.

Observations

1. Tenth lord Jupiter from mahadasha lord Rahu is placed i th sign of Mercury and in the nakshatra of Sun. Th sam combination is repeated here like previous case study - 3. W may check it repeatedly in next case studies to make it confirm
2. Influence of vargottama Mercury on 5th house and fift lord Mars from lagna and presence of Ketu in the 5th hous fro Mercury may mean study of computer languages. We may als confirm it in ensuing case studies.
3. In dashamsha chart, Mercury is fifth lord, associated with Ket and is aspected by Mars. 5th house is aspected by I0 lor Saturn from third house. This combination indicate caree i computer programming. Refer table - 1 for role of Ket i learning computer languages. We may check the influenc o Mercury and Ketu on lagna, 5th and 10th house of dashamsh chart for career in the field of computer programmin an languages.

The person was born on 3rd October 1960 at 12:10:00 hours(IST) a Delhi. He joined B.Sc.(Physics, Chemistry, Mathematics) in June, 1977 and then M. Sc. (Mathematics) in June 1980. He joined government service in 1984 in the field of computer programming and did many computer courses, which includes computer programming and computer languages during service. He was also involved in teaching computer programming and languages.

In birth chart, 5th house is aspected by Jupiter, Mercur an Venus. Out of which Jupiter is under the influence two malefic planet i.e. Mars and Saturn, thus loses its beneficence. In navamsh chart

jupiter is again placed in the sign of Mars with Ketu and is aspecte by Mars. 5th lord, Mars is placed in the airy sign of Mercury an i

aspecting the Sun. The Sun is also placed in the sign of Mercury. Thus the connection of digbal and powerful Sun with fifth lord Mars an Mercury shows education in the field of Mathematics. From Mercury fifth house has Ketu and Moon. Fifth lord, Saturn is aspectin th Mars and Sun. Saturn is placed in the nakshatra of Venus wh i associated with Mercury. From Mercury, there is again a link of Sun, Mercury and Mars with fifth lord Saturn.

In Navamsha chart, fifth house is aspected by exalted Mars from tenth house. Fifth lord is Sun and is aspected by the Mercur an Saturn. Thus navamsha chart confirms the promise of birth chart. Th role of Sun with supporting planets i.e. Mercury and Mars come int play prominently in birth and navamsha charts. Thus the educatio has to be Mathematics and Physics. The presence of Moon in the fift house from Mercury also gives indications towards chemistry but it i not connected with fifth house from lagna. It is also not associate with fifth house in navamsha chart. He was more intereste i Mathematics than Chemistry. He studied chemistry as a compulsor subject available with the group.

He joined B.Sc.(Physics, Chemistry and Mathematics in 197 during the dasha of Saturn/Venus/Sun. Mahadasha lord, Satur i aspecting the Moon, fifth lord Mars and digbali Sun. Sun and Mars both are placed in the signs of Mercury. Antardasha lord, Venu i associated with Mercury and is aspecting the fifth house. Pratyanta dasha lord, the Sun is digbali and is aspected by the fifth lord Mar and Saturn. All the dasha lords are connected with fifth house or fift lord, Mars. In navamsha chart, Mahadasha lord, Saturn is tent lor placed in Virgo, a sign of Mercury and is aspecting the fifth lord, th Sun. Antardasha lord, Venus is aspecting the fifth house. Pratyanta dasha, the Sun is the fifth lord and is aspected by the Mercury. All th dasha lords are connected with fifth house or fifth lord. Also notic the connection of dasha lords with Sun, Mercury, Mars.

He joined M.Sc.(Mathematics) with Astronomy in 198 durin the dasha of Saturn/Sun/Mercury. The role of dasha lords has alread been discussed. ***Notice the importance of the Sun (antardasha lord) for studying mathematics with astronomy.***

This case study also confirms the role of Sun for studyin mathematics.

Observations

1. Tenth house from mahadasha lord Saturn is occupied by the Sun and tenth lord is Mercury. Tenth lord Mercur i i th

nakshatra of Rahu who is placed in the sign of the Sun. Th influence of Sun and Mercury on the tenth house and tenth lor from the mahadasha lord exits here like previous case studie - 3 Jk 4. It means, it has some relevance with the stud o Mathematics.

2. Mercury is aspecting the fifth house and the fifth lord, Mar i also placed in the sign of Mercury. Ketu is placed in the fift house from Mercury. Same combination is repeated her lik previous case study - 4. it has definitely a role in learnin computer languages. We shall also check it in the nex cas studies to confirm the same.
3. In dashamsha chart, Mercury is tenth lord placed in lagna whil Ketu is placed in the tenth house. Mars is fifth lord an i aspecting the own house. Jupiter is aspecting the tenth hous being lagna lord. Thus confirms the career in computer an teaching computer programming and languages. Refer table - I for role of Ketu in learning computer languages.

He also completed one-year computer programming and languages course from NUT during 1992-93. He joined government service in August 1993 as computer programmer and did many advanced computer courses during service. He was also involved in teaching computer programming and languages and is an expert person with updated knowledge in the field of computer programming and languages.

In birth chart, fifth house is aspected by the Jupiter(R) an it own lord, Saturn. Fifth lord, Saturn is associated with exalte Sun Saturn is in the sign of Mars and is in the nakshatra of Ketu wh i placed in the sign of Mercury. From Mercury, fifth house has Ket and Jupiter, both are placed in the nakshatra of Sun. Fifth lord fro Mercury is Mercury itself and is aspected by the Mars.

In navamsha chart, fifth house has Saturn and is aspected by th Venus. Fifth lord is Mercury and is aspected by the Sun and Mars. The influence of Sun with Mars and Mercury on fifth house or fifth lord exits here like birth chart. Thus confirms the education in mathematics

He joined B.Sc.(Mathematics) Hons, in June 1987 durin th dasha of Ketu/Saturn/Jupiter. Mahadasha lord, Ketu is placed in th lagna, in the sign of Mercury and in the nakshatra of Sun. Antardash

Satur is lagna lord and is placed in the fifth house(Gemini). Jupiter is elevent lord and is associated with exalted tenth lord, Mars.

He joined M.Sc.(Mathematics) in June 1990 during the dash o Venus/Venus/Jupiter. Venus is exalted ninth lord and is placed in th nakshatra of Mercury. In navamsha chart, Venus is ninth lord an i aspecting the fifth house. The role of Jupiter has alread bee discussed. The dasha of ninth lord was the excellent period for him t complete higher studies. He joined Computer programmin an languages course in July 1992 during the dasha of Venus/Sun/Saturn Venus is ninth lord and is placed in the nakshatra of Mercury Su i associated with fifth lord, Saturn. Sun and Saturn are placed in th nakshatra of Ketu. Notice the importance of Ketu for learnin computer languages.

Observations

1. Tenth lord from mahadasha lord Venus is Jupiter. Jupite i placed in the sign of Mercury, in the nakshatra of Sun an i associated with Ketu. Here the influence of Sun, Mercur an Ketu on tenth lord from the mahadasha lord Venus indicate education in Mathematics and Computer languages.
2. Fifth lord, Saturn is placed in the nakshatra of Ketu. Ket i placed in the fifth house from Mercury. Same combinatio i repeated here like previous case studies. The role of Ketu in fift house from Mercury is most likely to be confirmed for learnin computer languages in the next case studies.
3. In dashamsha chart, Lagna is Gemini, a sign of Mercury. Ketu i placed in the lagna with Saturn and Jupiter while Mercur i aspecting the fifth house. Thus confirms the career in computer and teaching computer programming and languages

He was also involved in teaching computer programming and languages.

In birth chart, fifth lord is Mars and is placed in own nakshatra

in the sign of Venus who is placed in the sign of Sun. Mars is associate with Mercury in airy sign and is aspected by the Moon. From Mercury fifth house has Ketu and is aspected by own lord Saturn and Venus

Fifth lord from Mercury is Saturn who is placed in the nakshatr o Sun and is aspecting the Sun placed in Virgo, a sign of Mercury.

In navamsha chart, fifth house has exalted Sun. Fifth lord is Mars and is associated with Mercury and Ketu. This confirms the promis of birth chart and indicates education in Mathematics. He is a ver good mathematician and he can solve any complex problem of higher mathematics even after completion of 20 years of his M.Phil. Th presence of watery sign in the fifth house and aspect of Moon on fifth lord, Mars also gives indications towards study of Chemistry H studied chemistry as a compulsory subject availabl wit th Mathematics and physics; however, he was interested in Mathematics

He joined B.Sc.(Physics, Chemistry and Mathematics) in 198 during the dasha of Venus/Mercury/Mars. Mahadasha lord, Venu i 4th lord and is placed in the sign of Sun. Venus is also aspecting the 5th house from karaka Mercury. Antardasha lord, Mercury is associate with 5th lord, Mars. Pratyantar dasha lord, Mars is 5th lord an i associated with Mercury. In navamsha chart, Mahadasha lord, Venu is placed in the 8th house with eighth lord, Moon. Antardash lord Mercury is 10th lord and is associated with 5th lord, Mars. Pratyanta dasha lord, Mars is 5th lord and is associated with 10th lord, Mercury Due to ill placement of mahadasha lord, Venus in navamsha chart, h could not achieve first division. He passed B.Sc. with second division Thanks to excellent antardasha of Mercury which saved him. Also se the mutual positions of Venus and Mercury in birth and navamsh charts. In birth chart, they are in 3-11 positions of each other and i navamsha chart, they are in 5-9 positions. These are the excellen placements of planets as per principles of dasha interpretation

Break in education after completion of B.Sc. Notice the role o dasha chhidra. Next dasha is of the Sun who is afflicted by retrograd 8th lord, Saturn from sixth house. Jupiter is also aspecting the Sun and the Sun is exalted in the fifth house of navamsha chart. This could b the saving grace. Now, Sun needs a good fifth house from its positio for continuation of education. The troublesome antardashas wer o Moon, Mars and Rahu as they are placed in six-eight and two-twelv positions from the Sun. Next antardasha will be of Jupiter wh i placed in the fifth house from Sun. In navamsha, they are placed in 3-11 position. This was the right period to resume education. He joined M.Sc.(Mathematics) in 1984 during the dasha of Sun/Jupiter/Su and did very well in his studies during remaining dasha of Sun. H also completed M.Phil.(Mathematics). See ***the role of the Sun for education in mathematics.***

Observations

1. 10th lord from mahadasha lord Venus is Venus itself and is place in the sign of Sun. He completed M.Sc. and M.Phil i mathematics in the mahadasha of Sun. There is no nee t check the influence on 10th house if mahadash i o th significator, the Sun. Here the influences of Sun on 10 lor from the mahadasha lord Venus and mahadash o Su indicates education in Mathematics.
2. 5th lord, Mars is associated with Mercury. Ketu is placed in th fifth house from Mercury. Same combination is repeate her like previous case studies. The role of Ketu in 5th hous fro Mercury is more or less confirmed for learnin compute languages.
3. In dashamsha chart, Lagna is Virgo, a sign of Mercury. Rahu Ketu axis falls on Lagna. Mercury and Jupiter are aspectin th 10th house. 5th lord, Saturn is placed in the sign of Mercury and i aspecting the Ketu and 10th house. Thus confirms caree i computers and teaching computer programming and languages

In navamsha chart, 5th house is occupied by Jupiter an i aspected by Sun. 5th lord is Mercury who is associated with Moo and is aspected by the Mars. The role Sun with Mercury, Jupiter an Mars comes into play in birth and navamsha charts. That's why h studied Mathematics, Accounts and Banking in Graduatio an Mathematics in Post-Graduation. Notice the signs involved, they ar Leo in birth chart and Taurus, Virgo and Pisces in navamsha chart

He joined B.Sc.(Mathematics, Accounts and Banking) in 198 during the dasha of Venus/Jupiter/Rahu. Mahadasha lord, Venu i 10th lord and is placed in lagna (Leo sign) with fifth lord Jupiter an Mercury. Antardasha lord, Jupiter is 5th lord and is associate wit Mercury and Venus. Pratyantar dasha lord, Rahu is placed in the sig of Jupiter and is in nakshatra of Mercury. Thus Rahu will act as Jupiter

and Mercury. ***Notice the role of Sun with Mercury and Jupiter for studying mathematics, accounts and banking.***

Antardasha lord, Saturn is placed in 9th house, in the sig of Mars and is aspected by the 5th lord, Jupiter. In navamsh chart Saturn is ninth and 10th lord and is aspected by the Mars. ***See the role of antardasha for studying technical subject i.e. mathematics only.***

Observations

Tenth lord from mahadasha lord Venus is Venus itself wh i placed in the sign of Sun with Jupiter and Mercury. Thus indicate education in mathematics, accounts and banking.

Conclusion

Analysis of ten cases reveal the following conclusions: -

(i) In case study - 1, the link of exalted vargottama Sun with 5 lord Venus in the presence of weak and unhelpful Mercury an the influence of Jupiter on 5th house in birth and navamsh charts inclined her to study political science in the mahadash of Sun.

(ii) ***The Sun is the main planet for studying higher mathematics if the Mars and Mercury support it.***

(iii The Sun is the main planet for studying physics if the Saturn an Mercury support it. We shall confirm it in the ensuin cas studies of physics.

(iv) The presence of watery signs in the 5th house or connectio o Moon with it and dasha lords is an indicator for studyin chemistry.

(v) The connection of Ketu with fifth house or influence of Ketu o the 5th house from Mercury or its association with Mercur indicates study of computer programming or language only but it may not be the combination for computer engineerin because computer engineering is the combination of engineering most probably the electronics and computer science.

(vi) Reference case study - 10, the connection of Sun with Mars Mercury and strong Jupiter may mean study in mathematic together with accounts and banking.

Physics

Physics is a branch of science that is based on the fundamenta laws of the universe and their precise formulation in a mathematica framework. Physics deals with the elementary constitute o th universe such as matter, energy, space and time and their interactions

Physics is also deeply related to engineering and technology For example electrical engineering is related with the practical application of electromagnetism and mechanical engineering is again base o the applications of the principles of classical physics like statics kinematics, force, dynamics and energy.

Therefore, the role of Sun(matter, energy, space and time) Saturn(technical skill to analyse the laws of the universe) and Mercur (mathematical framework) comes into play.

Case Study - I

This is a case study of a woman scientist born on 24th July 1975 at 18:34:00 (1ST) at Delhi. She joined B.Sc.(Physics, Mathematics and Applied Electronics) in 1993, M.Sc.(Physics) in 1996 and Ph.D.(Physics) in 1998.

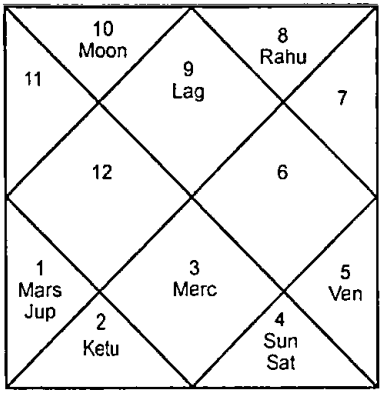
Promise for good education

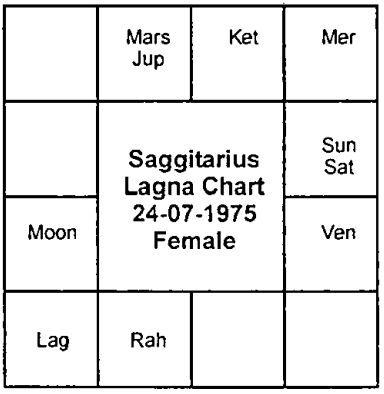
The lagna, lagna lord Jupiter (Self and significator of wisdom) Mercury (tenth lord of profession and significator of education), Satur (third lord of self-efforts) and Venus (eleventh lord of achievements are vargottama and making it a strong horoscope. See the conjunctio of lagna lord, Jupiter and fifth lord, Mars in the fifth house. In navamsh chart, they are in mutual aspect along 5 - 1 1 axis. The combinatio o lagna and fifth lord involving the fifth and eleventh houses is a powerful Rajayoga and is an excellent combination for achievement in th educational field. Fifth lord, Mars is placed in fifth house in birth char and is aspecting the fifth house (own house) in navamsha chart. Thus five house of education in birth and navamsha charts becomes stron and promises excellent educational career.

Type of education

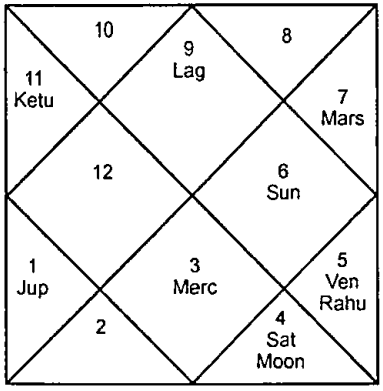
Fifth house from lagna is Aries, a fiery sign of Mars. Fifth hous is occupied by its own lord, Mars and lagna lord, Jupiter and is aspecte by the Saturn. *Jupiter is in the nakshatra of Ketu, in the sign o Mars, associated with powerful Mars and is aspected by the Saturn. Thus Jupiter has lost its non-technical qualities.* Fifth lord, Mars is aspectin the Sun and Saturn. Therefore the influence of technical Sun, Satur and Mars is predominating over the non-technical influences Fift house from Mercury is again aspected by Mars and Jupiter. Fifth lor from Mercury, Venus is placed in the sign of Sun who is associate with Saturn and is aspected by Mars. The role of Sun comes into pla bo+ i from lagna and Mercury.

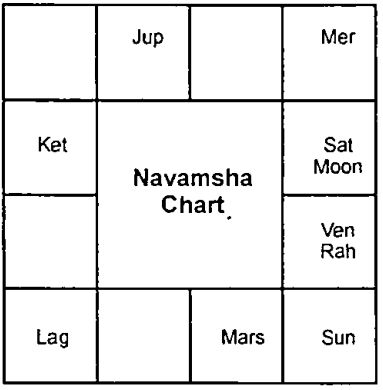
In navamsha chart, fifth house is again aspected by Mars an Saturn while Sun is placed in the tenth house, in the sign of Mercury





Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
26° 59'	07° 30'	22° 24'	22° 41'	28° 32'	00° 26'	15° 23'	00° 08'	05° 25'





and is aspected by Saturn. The vargottama Saturn is connectin th Sun and fifth house in both birth and navamsha charts.

Thus the connection of Sun and Saturn and their relationship with fifth house in presence of vargottama and strong Mercury point towards study of Physics. The presence of fiery sign in the fifth hous and the connection of fifth lords from lagna and Mercury in birth an navamsha charts with Leo, a fiery sign of fiery planet, the Sun indicate study of electronics.

She joined B.Sc.(Physics, mathematics and applied electronics i 1993 during the dasha of Rahu/Mercury/Saturn. Mahadasha lord, Rahu is placed in the sign of Mars and is aspected by the fifth lord, Mars Rahu is in nakshatra of Saturn who is associated with the Sun an i aspected by the fifth lord, Mars. Thus Rahu is connected with fift house, Sun, Saturn and Mars. Antardasha lord, Mercury is vargottam tenth lord and is again good for success in education. Pratyantar dash lord, Saturn is associated with ninth lord, the Sun and is aspecte b the fifth lord, Mars. The connection of dasha lords with fifth house tenth house, Sun, Saturn, Mars and Mercury is an excellent combinatio for studying physics, mathematics and electronics. In navamsha chart mahadasha lord, Rahu is placed in the ninth house with eleventh lord Venus, in the sign of Sun who is placed in sign of Mercury an i aspected by Saturn. Antardasha lord, Mercury is tenth lord. Pratyanta dasha lord, Saturn is aspecting the ninth lord, the Sun and fifth house Navamsha chart repeats the same story.

She joined M.Sc.(Physics) in 1996 during Rahu/Venus/Jupiter Role of role has already been discussed. Antardasha lord, Venu i placed in ninth house, in Leo, sign of Sun in birth and navamsh charts. Notice the relationship of antardasha lord Venus with Sun fo studying physics. Pratyantar dasha lord, Jupiter is lagna lord, place in fifth house and is related with fifth lord, Mar's and Saturn in birth an navamsha charts.

She joined Ph.D. (Physics) in 1998 during Rahu/Sun/Venus Rol of dasha lords has already been discussed. Notice the role antardash lord, the Sun for research in physics. Sun is ninth lord and is associate with Saturn who is placed in the eighth house of research.

Let us check the role of Sun, Saturn and Mercury in the horoscop of Albert Einstein, famous physicist and noble laureate.

Case Study - 2 (Albert Einstein)

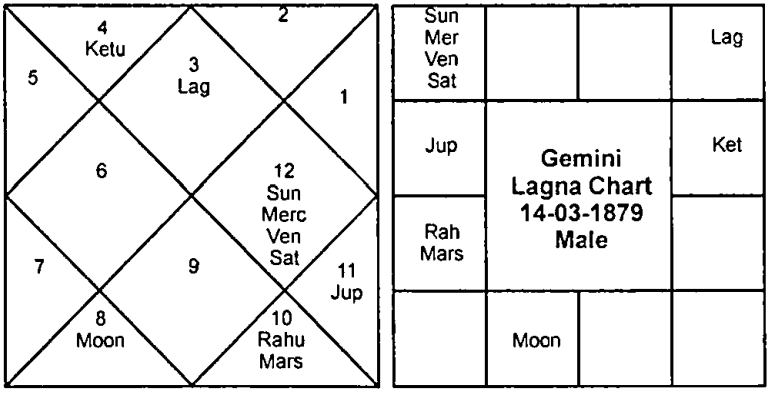
Albert Einstein was born on 14th March 1879 at 11:30:00 hours at Ulm, Germany. He was a great physicist and awarded the 1921 Noble Prize in

Physics for his services to theoretical physics and especially for his discovery of the law of "Photoelectric effect". He is best known for his theory of relativity and mass-energy equivalence, $E = mc^2$. In 1999, Albert Einstein was named "Person of the Century" by Time magazine; the Gallup Poll recorded him as the fourth most admired person of the 20th century. In popular culture the name "Einstein" has become synonymous with Genius.

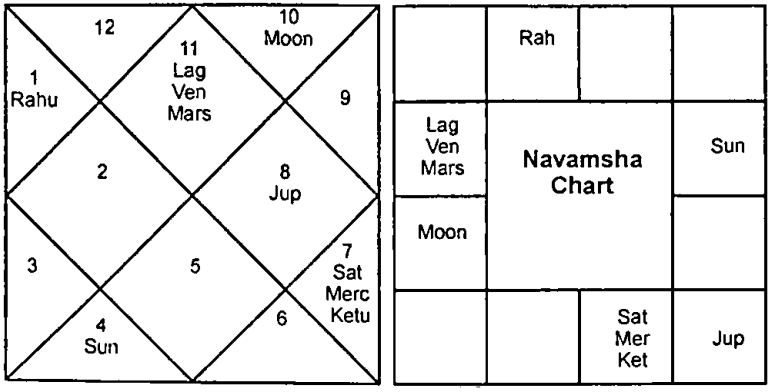
Feature of horoscope

In birth chart

- There is powerful rajayoga in the horoscope formed by a brilliant exchange of the ninth and tenth lords. This is a very powerfu combination for great fame and achievements in life speciall when the eleventh lord of achievements, Mars is place i it



Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
13° 27'	01° 19'	22° 08'	04° 43'	10° 56'	05° 18'	24° 47'	12° 00'	10° 33'



sign of exaltation.

- There is conjunction of lagna lord, debilitated Mercury and fift lord, exalted Venus in the tenth house. This is a perfect case o neech-bhanga rajayoga. The connection of lagna and fifth lords is again an excellent combination for success/achievement in th field of education and research work.
- Planets in the tenth house are Sun with directional strength exalted Venus (fifth lord), Saturn (ninth lord) and Mercury (lagn lord) and making it an extraordinary powerful tenth house.

In navamsha chart

- There is a conjunction of ninth and tenth lords in lagna and th eleventh lord, Jupiter is placed in the tenth house Thi i powerful combination for great fame and success in life.
- Lagna lord, Saturn is exalted in the ninth house and is associate with fifth lord, Mercury and Ketu. The navamsha chart repeat same story of birth chart.

Venu i exalted fifth lord and Mercury is lagna lord. *Now remember three classical principles of astrology; the major or sub periods of the lagna or the tenth lords, like the periods of exalted planets are favourable for professional advancement.*
- In 1919 during the dasha of Sun/Saturn, a team led by British astronomer Arthur Eddington have confirmed Einstein's predictio of gravitation deflection of starlight by the Sun althoug thi theory was earlier disproved by the two observatories locate i California, USA. Sun is the third lord and is placed in the tent house with directional strength. Remember the observatio o Shri Harjeet Singh, published in Finer Techniques of Prediction Vol. Two under title "The third lord - the miracle baba" (i) Perso who come into prominence suddenly have their third lord in th tenth house; (ii) It is the strength of third lord which gives to on unexpected rise in the field of activity he is engaged in (iii) whe placed in the tenth house it givers miraculous rise. This rise i conferred or become possible in the mahadasha or antardash or the pratyantar dasha of third lord (iv) The rise given by third lor is so spectacular or striking that it often seems to border on th miraculous.

- In 1921, he got Nobel Prize for his services to theoretical physic and especially for his discovery of the law of "Photoelectri effect" when he was running the dasha of Sun/Venus, both are in the tenth house. The role of the Sun has already been discusse above. Venus is the fifth lord and is exalted in the tenth house
- In the dasha of Moon, he faced many gloomy moments when hi second son, Edward accused him of neglecting him.
- When Adolf Hitler came into power in 1933. One of the firs actions of his administration was to remove Jews and politicall suspect government employees including university professor from their jobs. Consequently, Einstein had to flee Germany I was the dasha of Mars/Rahu, both of are placed in eighth hous of humiliation.
- Einstein died on 18th April 1955 at the age of 76, durin th dasha of Rahu/Moon/Jupiter. Rahu is placed in eighth house Moon is second lord and Jupiter is the seventh lord. See the rol of seventh and eighth houses.

Chemistry

Chemistry is the scientific study of interaction of substances called chemical substances that are constituted of atoms or the subatomi components that make up atoms: protons, electrons and neutrons Atoms combine to produce ions, molecules or crystals. Chemistry can be called "the central science" because it connects the other natura sciences, such as astronomy, physics, material science, biology an geology.

The genesis of chemistry can be traced to certain practices, know as alchemy, which had been practised for several millennia in variou parts of the world, particularly the middle east.

Robert Boyle (1661), Antoine Lavoisier (1787), John Dalto (1808), and Jöns Jakob Berzelius (1828) are considered the founder of modern chemistry (sometimes referred to as the "Fathers of Moder Chemistry"), though some consider Geber (d. 815) to be th firs chemist.

The some of the standard definitions of chemistry used b th various noted chemist, subject to the changes made in the functionalit of this science on the basis of new discoveries and theories are give below:-

- Alchemy (330) - the study of the compositio o waters movement, growth, embodying and disembodying drawin the spirits from bodies and bonding the spirits within bodie (Zosimos).
- Chymistry (1661) - the subject of the material principles of mixt bodies (Boyle).
- Chymistry (1663) - a scientific art, by which one learn t dissolve bodies, and draw from them the different substance on their composition, and how to unite them again, and exalt the to an higher perfection (Glaser).
- Chemistry (1730) - the art of resolving mixt, compound o aggregate bodies into their principles; and of composin suc bodies from those principles (Stahl).

- Chemistry (1837) - the science concerned with the law an effects of molecular forces (Dumas).
- Chemistry (1947) - the science of substances: their structure their properties, and the reactions that change them into othe substances (Pauling).
- Chemistry (1998) - the study of matter and the change i undergoes (Chang).

According to the astrological classics, the Moon is the water planet and is described as dhatu(mineral) together with Saturn, Mar and Rahu. The Sun and Venus are known as mula(vegetation whil Jupiter and Mercury are known as jeeva (living being). In this way, th role of the Moon comes into play in the study of chemistry. Scorpio i a prominent sign for dealing with chemicals and studying rasayan shastra (chemistry). Therefore, the fifth house/fifth lord indicatin education should come under the influence of the Moon and water signs especially Scorpio together with Mars, the lord of Scorpio which is also responsible for chemical process. Let us take some case studie to confirm the applicability of these parameters.

Venus is in the nakshatra of Saturn who is placed in th sign of the Moon. There is an exchange between fifth lord Venus an sixth lord Mars. Thus fifth house comes under the influenc o th Moon and Mars which indicates education in chemistry and chemicals From Mercury, fifth lord is Saturn and is placed in the sign o th Moon.

In navamsha chart, fifth house is aspected by the Mars from th watery sign. Fifth lord Mercury is conjunct with the Moon whic

confirms the education in chemistry and chemicals.

Role of Dasha (Ketu/Mercuiy).- In birth chart, mahadash lord Ketu is conjoined with fifth lord Venus in the Scorpio, a watery sign of Mars. Antardasha lord, Mercury is placed in the fifth house i navamsha chart, mahadasha lord, Ketu is associated with fifth lor Mercury and the Moon. Antardasha lord, Mercury is fifth lord and i conjoined with the Moon.

Observation

(i) Fifth house from the mahadasha lord Ketu is occupied b th Moon.

(ii) Tenth lord from mahadasha lord Ketu is the Sun and is aspecte by che Moon and is placed in the nakshatra of the Moon.

In birth chart, Fifth house is occupied by the Mars and is aspecte by the Jupiter and Venus. Fifth lord is Saturn and is placed in Scorpio a prominent sign for Rasayana Shastra (Chemistry). From Mercury fifth lord is Saturn again and is placed in Scorpio.

In navamsha chart, fifth house is occupied by th Moon Venus(fifth lord) and the debilitated Sun and is aspecte b th powerful Mars. Thus fifth house and fifth lord comes under the influenc of the Moon and Mars which confirms the education in chemistry

He joined B.Sc. during the dasha of Mercury/Rahu. In birth chart

mahadasha lord, Mercury is ninth lord and is aspected by the Moo and Mars which is capable to give education in chemistr bein influenced by the Moon and Mars. Mercury is also placed i th nakshatra of the Moon. Antardasha lord, Rahu is associated with fift lord Saturn in the watery sign of Mars (Scorpio) which is again indicating education in chemistry.

He joined M.Sc.(Chemistry) during the dasha of Mercury/Jupiter The role of mahadasha lord, Mercury has already been discussed Antardasha lord, Jupiter is the dispositor of the Moon and is aspectin the fifth house and the Mars. Jupiter is placed in own sign in navamsh chart.

Observation

(i) Fifth lord from the mahadasha lord Mercury is Saturn an i placed in Scorpio.

(ii) Tenth lord from the mahadasha lord Mercury is Mercury itsel who is placed in the nakshatra of the Moon and is aspecte b the Moon and Mars.

Mechanica Engineerin

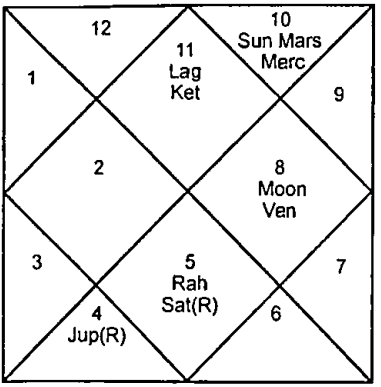
Mechanical engineering is a discipline that involves the applicatio of principles of Physics for analysing, designing, manufacturin an maintaining the mechanical systems. It requires a solid understandin of key concepts of mechanics, kinematics, thermodynamics and energy These techniques are used in designing and analysing the automobiles aircraft, heating and cooling systems, building and bridges, industria equipment and machinery etc. Therefore the role of Mars, Saturn an Sun will come into play. Mars represents physical force, kinetic energy engine, instruments, machine & tools, Saturn provides the technica knowledge to utilise these instruments, machine tool usin th principles of physics which is represented by the Sun. The parameter for education in mechanical engineering will be as under:

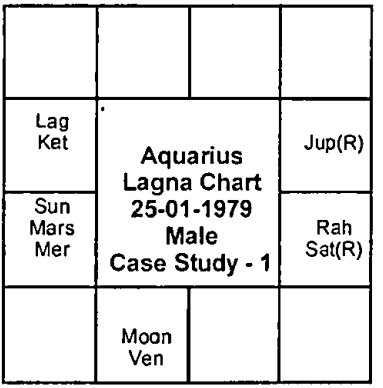
1. For education in engineering, there should be relationshi of fifth house/fifth lord and tenth house/tenth lord in a horoscope
2. The Mars, Saturn and Sun will make relationship with fift house/fifth lord and tenth house/tenth lord for educatio i mechanical engineering.
3. The dasha at the time of joining engineering colleg wil b related to the fifth house/fifth lord and tenth house/tent lord

Case Study 1

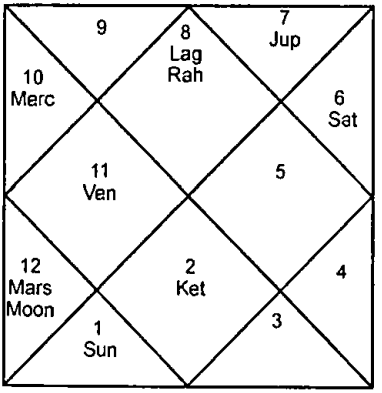
The person was *born on 25th January 1979 at 08:35:00 hours(IST) a Delhi. He joined B.E.(Mechanical engineering) in 1998 and completed the course successfully.*

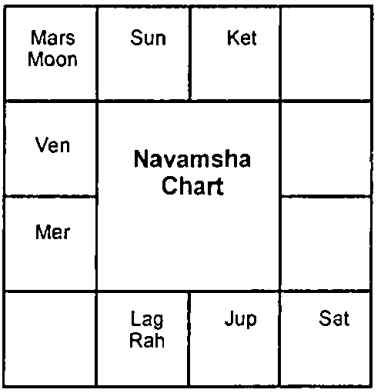
In birth chart, fifth house is Gemini, an airy sign of Mercury. Fifth lord, Mercury is placed in the twelfth house, in the nakshatra of Sun, in the sign of Saturn and is associated with the Sun (seventh lord) an exalted Mars (third and tenth lord). Thus the fifth and tenth lin i found in the chart and the fifth lord comes under the strong influenc of Mars, Saturn and Sun. However, fifth lord Mercury is also aspecte by the exalted Jupiter from the sixth house. The Jupiter has los it beneficence being a retrograde planet, placed in the nakshatr o Saturn and is aspected by the two malefics the Sun and powerfu Mars





Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
04° 54'	10° 58'	27° 03'	09° 53'	00° 57'	10° 24'	24° 15'	19° 38'	24° 49'





Hence Jupiter comes totally under the influence of Mars, Saturn an Sun. Fifth house from Mercury is aspected by its own lord Venus debilitated Moon and Saturn who is involved in a exchange with th Sun. Fifth lord from Mercury, Venus is placed in the watery sign o Mars and is associated with Moon which points towards Chemica engineering. But the influence of Mars and Saturn supporte by th Sun is stronger than the influence of Venus and debilitate Moon Venus and Moon have also lost their directional strengths being place in the tenth house.

Tenth lord from lagna, Mars is exalted, and is associate wit Sun and Mercury in the sign of digbali Saturn who has exchange sign with the Sun. Thus confirms the educatio in mechanica engineering.

In navamsha chart, fifth house is occupied by Moon and Mars and

is aspected by Saturn. Fifth lord, Jupiter is aspected by the exalted Sun (tenth lord) and Mars. Again the influence of Mars and Saturn with Sun is predominating over the other influences. Thus the education ha t be mechanical engineering.

He joined engineering college in 1998 during the dasha of Venus/ Rahu/Mercury. In birth chart, mahadasha lord, Venus is a yogakarak planet and is placed in the tenth house. Antardasha lord, Rah i placed in seventh house in association with digbali Saturn, in the sig of Sun and is aspected by the exalted tenth lord, Mars. Thus Rah comes under the influence of Mars, Saturn and Sun. Rahu is placed i the tenth house from mahadasha lord, Venus which is again a goo placement of dasha lords. Pratyantar dasha lord, Mercury is fifth lord who is associated with the Sun (seventh lord), exalted Mars (tent lord) in the sign of digbali, Saturn and is forming a Rajayoga. Mercur is again influenced by the Mars, Saturn and Sun. In navamsh chart mahadasha lord, Venus is placed is fourth house, in the sign of Saturn and is aspecting the tenth house. Venus is aspected by the fifth lord Jupiter. Antardasha lord, Rahu is placed in lagna, in the sign of Mar who is placed in the fifth house. Rahu is placed in the tenth hous from mahadasha lord, Venus which is again a excellent placemen o dasha lords. Pratyantar dasha lord, Mercury is eleventh lord of prapt and is involved in an exchange with Saturn.

Notice the connection of dasha lords with fifth house/fifth lord, tenth house/tenth lord, Mars, Saturn and Sun for education in mechanical engineering.

Observation

Tenth house from mahadasha lord Venus is Leo, a sign of Su and is occupied by Saturn and is aspected by the Mars. Tenth lord Sun in placed in the sign of Saturn and is associated with exalted Mars an Mercury.

Case Study - 2

This case study is taken from Tula Sankranti Issue (October-December 2003) of Journal of Astrology where this case was analysed by Dr. Vishal Wadhwa, a medical doctor by profession and he is also a brilliant researcher in astrology.

The person was born on 11th August 1975 at 23:55 hours(IST), Delhi. He has been lucky to get a good and uninterrupted education He graduated as Bachelor of Technology from Delhi Colleg o Engineering and subsequently completed his managemen cours

Good Education Birth chart

Fifth lord is Mercury in fourth house making a combinatio o kendra and trikona, it is conjunct with Venus (lagna and sixth lord forming a Rajayoga. Mercury is also aspected by Jupiter which is th eleventh lord of recognition, thereby combining three benefics.

Rajayoga is forming in the third house of self-effort b combination of Sun and Saturn. Saturn Is vargottama and aspect th fifth house thus strengthening it.

Fifth house from Mercury is being aspected by it ow lor vargottama Jupiter.

Navamsha Chart

Fifth lord is debilitated in ninth house but Venus is involved in a good exchange with ninth lord Mercury and is aspecte b Mar forming a Rajayoga.

Type of education technical or non-technical

Sun, Saturn, Mars, Rahu and Ketu have been considere a technical planets and Jupiter, Mercury, Venus and Moon as non technical planets.

Birth chart

Fifth lord Mercury is in sign of Sun and nakshatra of Ketu. 1 i conjunct with Venus and aspected by Mars and Jupiter. Moon in th nakshatra of Mars is in the fifth house and is aspected by Saturn. Fifth house from Mercury is aspected by Mars and Jupiter. Fifth lord fro Mercury is Jupiter in sign of Mars and nakshatra of Ketu and is aspecte by Saturn. Summing up the influences we find predominantl th influences of technical planets giving technical colour to the education

Navamsha chart

Fifth lord is Venus, aspected by Mars and Saturn. Fifth hous ha Mercury and is aspected by Mars. Navamsha also promises educatio in technical field.

Vocational course

For a vocational course, there should be a connection betwee the fifth and the tenth houses. In birth chart, fifth lord Mercury aspect tenth house and tenth lord Saturn aspects the fifth house. In navamsh chart, Venus, owns both the concerned houses.

For career in engineering there should be a connection betwee third, fifth and tenth house because fifth house of learning and tent house of work have to be connected with work with hands, which ar represented by the third house.

Dynamic promise

He got the mahadasha of Rahu(1981-1999) in Vimshottar an Dwisaptatisama dasha (DSS, a conditional dasha) of Rahu from 1983 1992. Rahu is in the seventh house; it is aspected by its disposito Mars from lagna. His education during this period was ordinary as th dasha was not connected to fifth house or fifth lord.

Choice of subjects (June 1991)

After passing the tenth board examination with averag mark the person was offered commerce because his marks had fallen belo the cut-off but luck favoured him and he got the opportunit to stud science, his desired subject.

At that time he was passing through Rahu/Mercury in Vimshottar

and Rahu/Venus in Dwisaptatisama dasha. Mahadasha lord Rahu a technical planet is in nakshatra of Saturn and is being aspecte by it dispositor Mars. Fifth lord from Rahu is Jupiter in nakshatra of Ketu aspected by Saturn. The mahadasha clearly points towards the technical nature of education. Antardasha lords of both the dasha system ar conjunct. Their roles in education have been discussed earlier and i was observed that they are capable of giving technical education The antardasha lords are involved in Rajayoga and are aspecte b th eighth lord Jupiter, which can give him the desired results but wit some change or delay.

Mechanical engineering (May 1993)

In conditional dasha (DSS), the mahadasha of Sun starte i October 1992. The Sun is involved in a Rajayoga with ninth and tent lord vargottama Saturn in the third house of self efforts, this brough out a distinctive change in his personality and the naughty kid of th class started emerging as a hard working student with command ove physics and mathematics, which Sun can give as it is conjunct with a technical planet (Saturn).

At the time of appearing for the entrance examination he wa passing through Rahu/Ketu in Vimshottari and Sun/Sun in DSS.

Rahu can give education in technical field as explained earlier The antardasha lord Ketu is conjunct with Mars which ca giv computer education and fifth house from it has Moon in nakshatr of Mars, and aspected by Saturn which can give education in chemistry pharmacy or medicine allied fields. Fifth lord from Ketu is Mercury in nakshatra of Ketu. It is conjunct with Venus and aspected by Mar which can give education in computer or electronic engineering

If we see DSS, the events are very clear, the dasha was of Sun Sun and it was explained earlier that it can give education in physics and mathematics, which are the subjects an engineer has to study Fifth house from Sun has Rahu and is aspected by its dispositor Mar which clearly indicated education in mechanical engineering*

MBA in marketing and fmance(January 1997)

In Vimshottari, the dasha was Rahu/Sun; fifth hous fro mahadasha lord is owned by Jupiter which is in turn is aspecte b

Mechanical engineering is based on the application of principles of Physics. Also notice the role of Mars, Saturn and Sun for education in Mechanical engineering - Naval Singh.

Saturn which can give education in management but the fifth hous from the antardasha lord is influence by Rahu and Mars which point towards a further course in mechanical engineering The promis becomes clearer if we see DSS in which the dasha from Mercury Antardasha lord Mercury is aspected by Jupiter and fifth house fro Mercury is under the influence of Jupiter again which points toward his education in management.

Conclusion

To study the subjects of education, the dynamic promise unfolde by the interplay of mahadasha and antardasha lords has to be seen i the light of the static promise with precedence given to antardash lord. The results have to be unfolded step by step keeping in mind th existing educational background.

Case Study -3

This is the case study of an engineering student to whom I hav given a prediction in February 2000 for his career in Mechanica engineering. He is the son of a lady physiotherapist to whom I ha approached for my treatment of facial palsy as I had an attack of it in 2000. In a discussion with physiotherapist, my wife told her about my knowledge of astrology. Immediately, she brought out a compute cast horoscope from the adjacent room and asked me t giv astrological readings about the education of her son. I analyse th horoscope and told her that her son will become a Mechanica engineer. The boy was selected for B.E.(Mechanical engineering i

July 2001 as predicted by me. She contacted me again in 2002 for an astrological guidance and confirmed the selection of her so i mechanical engineering degree course.

This person was born on 8th December 1983 at 16:10:0 hours(IST) at Delhi. He joined B.E.(Mechanical engineering) in 200 and completed the course successfully.

In birth chart, fifth house is Virgo, an earthy sign of Mercury and is occupied by Mars. Fifth lord, Mercury is placed in the eighth hous and is aspected Mars and exalted ninth and tenth lord, Saturn. Mercur is in the nakshatra of Ketu who is in degree conjunction with the Sun. Fifth house from Mercury is aspected by Mars, Venus and Saturn.

In navamsha chart, fifth house is occupied by the tent lord Mars. Fifth lord, Mercury is aspected by the Sun who is placed in th sign of Saturn. Tenth lord Mars is aspecting the Sun who is placed i the sign of Saturn. Summing up the influences, the influence of Mars, Saturn and Sun is predominating and the link of fifth - tenth house also exits in birth and navamsha chart. Thus the education has to b mechanical engineering.

He joined engineering college in 2001 during the dasha of Mars/ Sun/Venus. In birth chart, mahadasha lord, Mars is placed in fift house and is aspecting the fifth lord, Mercury. Antardasha lord, th Sun is placed in seventh house, in association with Jupiter and Ketu in the sign of Mars. The Sun is in the nakshatra of Mercury, the fift lord. Dasha lords Mars and Sun are placed in 3 - 11 positions mutually Pratyantar dasha lord, Venus is lagna lord and is associated with exalte ninth and tenth lord, Saturn. In navamsha chart, mahadash lord Mars is tenth lord and is placed in the fifth house. Antardash lord Sun is seventh lord, placed in the sign of Saturn and is aspecte b the fifth lord, Mercury and tenth lord, Mars. Pratyantar dash lord

Venus is fourth and ninth lord and is aspected by tenth lord, Mars an lagna lord, Saturn.

Notice the connection of dasha lords with fifth house/fift lord, tenth house/tenth lord, Mars, Saturn and Sun for educatio in mechanical engineering.

Observation

Tenth lord from mahadasha lord Mars is Mercury who is aspecte by Mars and Saturn. Mercury is also placed in the nakshatra of Ketu who is in degree conjunction with the Sun. Notice the influenc o Mars, Saturn and Sun on tenth lord from mahadasha lord, Mars

I want to give a simple explanation for this chart. In the mont o June 2007, when I was writing a case study for this book, a subordinat of my friend rang me and asked me to give astrological reading fo the business prospects of his friend *as* his friend wanted to do som improvement in his business. I calculated the chart and Vimshottar dasha. When I saw the influence of Mars, Saturn and the Sun on th

fifth house of navamsha chart and mahadasha of Mars at the tim education. I immediately asked him whether his friend has studie mechanical engineering? He said that his friend has an educatio i engineering but he did not know the branch of engineering. I aske him "can you confirm from your friend the branch of engineering" H said that I shall call you after 10 minutes after taking confirmation from my friend. He rang me again as promised by him and confirm th education of his friend in mechanical engineering. His friend joine B.Tech (Mechanical engineering) in the year 1988 at MITS Gwalio during the dasha of Mars/Saturn/Sun and completed the degree cours successfully. *Now see the connection of Mars, Saturn and the Sun with fifth house of navamsha chart both from lagna and Mercury. No other planets are influencing the fifth house of navamsha chart. He joined mechanical engineering in the dasha of these planets (Mars/ Saturn/Sun). This case study also confirms the importance of navamsha chart.*

Civil Engineerin

Civil engineering is a broad field of engineering that deal i planning, construction and maintenance of fixed structures, or publi works, as these are related to earth, water or other civil aspect an their processes. Today, civil engineering is mostly dealing with powe plants, bridges, roads, railways, structures, water supply, irrigation the natural environment, sewer services, flood control, transportatio and traffic. Civil engineering is the broadest of the engineerin fields partly because it is the oldest of all engineering fields.

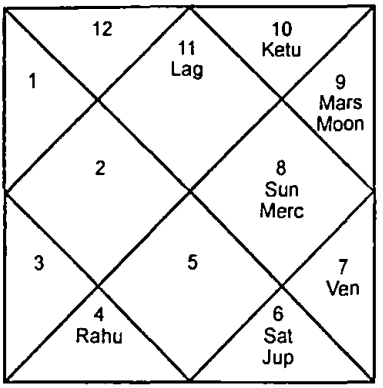
Civil engineering is based on the typical application of principle of Geotechnical Engineering, Structural Engineering, Environmenta Engineering, Transportation Engineering and Construction Engineerin to residential, commercial, industrial and public works project of all sizes and levels of construction.

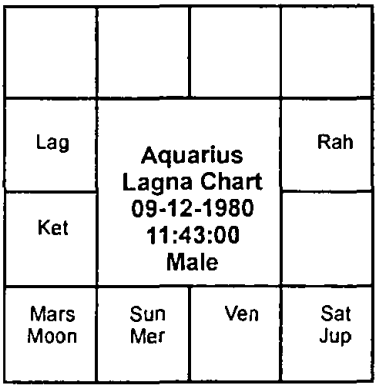
Therefore the role of Mars(land), Saturn(constructio material and Mercury(measurement) comes into play. Apart from this, ther should be a link of fourth, fifth and tenth houses in the horoscope o civil engineers as the fourth house is related with land/structure fift house with education and tenth house with works.

Case Study - I

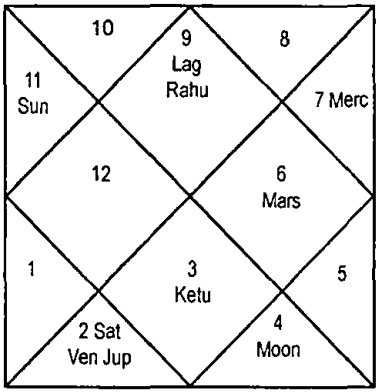
This chart belongs to an engineering student, bom on December 9, 1980 at 11:43:00 hours at Delhi. In March 1999, father of this boy contacted me and asked a question, whether his son would be able to succeed in an examination to be qualified for the selection in an engineering course. He had already consulted dozens of astrologers and was unsatisfied and demoralised with the answers of the astrologers. He had spent a lot of money in the remedies prescribed for Kaal Sarpa Yoga and fees of the astrologers but no astrologer was clear in predicting the selection of his son in engineering course. He was very much worried about the educational career of his son. He told me that his son was preparing for entrance examination for selection in engineering degree course for the last two years and will appear in entrance examination.

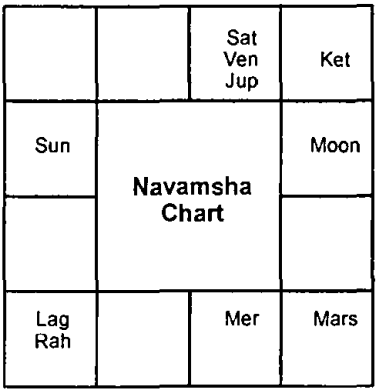
I prepared the horoscope of boy on the basis of Chitrapaksh

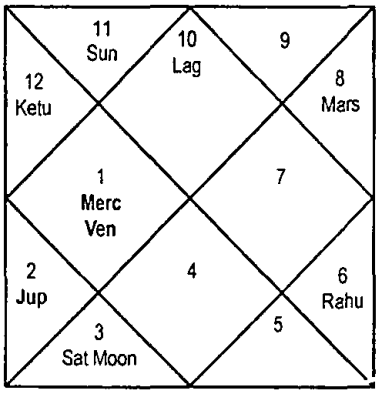


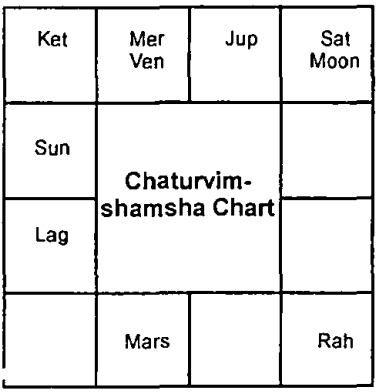


Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
06° 52'	23° 45'	12° 43'	19° 12'	13° 35'	13° 35'	25° 12'	14° 45'	18° 33'









ayanamsha (Lahiri) and verified some of the past events to confirm th correctness of the horoscope and asked the father to wait for a day, a

I have to analyse the horoscope in detail especially when I learnt tha he has already consulted so many astrologers. Next day after analysin the horoscope, I predicted that his son is definitely going to be selecte in the engineering course unexpectedly but with some difficult an obstruction. The success in competitive examination was clearly visibl from the horoscope of the boy, which every astrologer consulte ha denied and started prescribing remedies for Kaai Sarpa Yoga whic actually has no place in any astrological literature or classic.

The results of some of the engineering Colleges/Universitie wer declared in July 1999. The boy was not selected in any of the Colleges Universities. The one and only last hope was selection in an engineerin college at Chandigarh. Finally the result of Chandigarh was declare and boy was called for first counselling on 21" July'99 but could not be selected. Again he was called for second counselling on 21" August'99 During the second counselling, only five seats were availabl in th course. This boy was at sixth place in the list. No chance of his selectio was visible at that moment. The boy and his father both had los al hopes and started packing the documents. In the meantime, the fift candidate of the list withdrew his name from counselling and finall this boy got selected but unexpectedly for admission in B.E. (Civi Engineering).

The boy was then running the Vimshottari Dasha o Venus Mercury/Jupiter.

Basis of my prediction

Fifth lord, Mercury occupies the tenth house of distinction wit digbali Sun, the seventh lord of attainment of position and aspect fourth house. This is an excellent combination for succes i a competitive examination. The Mercury also happens to be the lord o eighth house and it is under the influence of lagna lord, Saturn fro eighth house, which shows the element of suddennes an unexpectedness. Venus, the fourth and ninth lord occupies the ninth house an alternate house for education being a fifth from fift (mooltrikona sign of Venus). The third lord, Mars occupies the elevent house and aspects fifth house and is indicating the hard wor an success through self efforts. The aspect of sixth lord (Moon) and lagn lord (Saturn) from eighth house on fifth house also shows some kind of difficulties and obstructions in the educational career.

link of fifth and tenth houses — The fifth lord, Mercur occupies the tenth house and tenth lord, Mars aspects the fifth house, the link of fifth and tenth houses shows that the education attaine

through the fifth house has to be put to use through the hous o profession. This combination is generally found in the horoscope o engineers and doctors where the education attaine ha direc connection with the profession. This link of fifth and tenth house i also repeated in Navamsha Chart where fifth lord, Mars occupie th tenth house. Mars also aspect the fourth and fifth houses. Tenth lord Mercury aspects fifth house. The Navamsha chart confirms the promis of birth chart. Thus the education of this boy has to be vocational professional.

Type of Education — Fifth house from lagna is receivin th aspect of Mars and Saturn. Fifth lord, Mercury is placed in tenth hous with the Sun, in the sign of Mars, in the Nakshatra of Saturn and i receiving the aspect of Saturn. Mercury is also aspecting the fourt house. Fifth house from karaka Mercury is also receiving the aspec of Mars, Saturn and Jupiter. Fifth lord from Mercury, Jupiter is placed i the sign of Mercury. In Navamsha chart, fifth lord, Mars aspects fourth and fifth houses from tenth house. Tenth lord, Mercury is also aspectin the fifth house. Summing up the influences on fifth house and fifth lord from Lagna, Mercury and Navamsha, the influence of Mars, Saturn and Mercury is predominating. Thus the education has to technical in civil engineering.

The influences of Mars, Saturn and Mercury on fifth house an fifth lord and connection of fourth, fifth and tenth houses indicate technical education in the field of civil engineering. Fourth hous i taken here for civil engineering as it indicates land, buildin an construction activities. Mars indicates land, Saturn indicates buildin and construction material and Mercury indicates measuremen works

Role of dasha : **Venus/Mercury/Jupite**

In birth chart, Venus, the MD lord, is the fourth and ninth lor and is placed in ninth house - an alternate house for education bein fifth from fifth (mooltrikona sign). Mercury, the AD lord, is the fifth lord of education, placed in tenth house of distinction with digbali sevent lord, the Sun and aspects the fourth house. This is a combinatio fo success in competitive examination. The Mercury is also the lord o eighth house and is aspected by the lagna lord, the Saturn from eight house, which shows the element of suddenness and unexpectedness Jupiter, the PD lord, is eleventh lord of fulfilment of ambition placed in the eighth house of suddenness and unexpectedness. Jupiter, the P lord, is showing the sweet fruits of labour suddenly and unexpectedl being a eleventh lord in eighth house.

In navamsha chart, Venus is placed in own house. Mercury is th tenth lord of distinction and is aspecting the fifth house of education Jupiter is the lagna lord, placed in sixth house of competitio wit sixth and eleventh lord of gains, Venus and third lord of self effort Saturn and is aspecting the fifth lord, Mars placed in tenth house

In chaturvimshamsha chart, Venus is the fifth lord of education very well placed in the fourth house with ninth lord, the Mercury an is aspecting the tenth house of distinction. Mercury is the ninth lord placed in fourth house with fifth lord Venus and is aspecting the tent house. Jupiter is placed in fifth house of education. Venu in hi Mahadasha is, therefore, capable to give excellent education Th connection of AD lord, the Mercury with fifth and tenth in all the thre concerned divisional charts shows the selection in engineerin course

Notice the connection of dasha lords with fourth, fifth an tenth houses in all the three charts.

In birth chart, fifth house is Aquarius, an airy sign of Saturn. Fifth house is occupied by retrograde Jupiter and is aspected by the Su and Venus. Jupiter is in the nakshatra of Rahu who is placed in the sig of Mars. Fifth lord, Saturn is placed in the ninth house, in the sign o Mercury, in the nakshatra of Jupiter and is aspected by Jupiter. From Mercury, Saturn is again fifth lord. Broadly, fifth house from lagna and Mercury comes under the influence of non technical planets. The fourth and fifth lord, Saturn is aspecting the tenth lord, the Moon. Thus lin of 4 5 I0 houses exists here, which is giving indication toward vocational course. Tenth house is bereft of any aspect or conjunction Tenth lord, the Moon is in the nakshatra of Saturn and is aspecte b Mars, Saturn and Mercury. Tenth house comes under the influenc o Mars, Saturn and Mercury. Thus, the link of 4 5 I0 houses and th influence of Mars, Saturn and Mercury on tenth lord indicate technica education in civil engineering. Now, we have to take the hel o navamsha chart and dasha running at the time of admission in th engineering course to settle down slight variations in education

In navamsha chart, Venus is fifth and tenth lord. Venus is place in the fourth house with Saturn and is aspected by the exalted fourt lord, Mars who is conjoined with Mercury. Mars, Saturn and Mercur

influence both, fifth and tenth houses. Besides, the link of 4 - 5 - 1 houses is also present. Thus navamsha chart confirms the educatio in civil engineering. *In case of engineers, tenth house is indicating educational pattern more prominently than the fifth house but there should be a link of fifth and tenth houses.*

He joined B.E.(Civil engineering) in 1992 at Delhi Colleg o Engineering during the dasha of Mercury/Saturn/Saturn. In birth chart mahadasha lord, Mercury is ninth lord, conjoined with Mars and i aspected by the tenth lord, the Moon forming a rajayoga. This is a excellent mahadasha for educational career. Antardasha and pratyanta dasha lord, Saturn is fourth and fifth lord and is aspecting the tent lord, the Moon. Antardasha and pratyantar dasha lord, Saturn is place in the tenth house from mahadasha lord, Mercury which is an excellen placement of dasha lords *as* per the principles of dasha interpretation

In navamsha chart, mahadasha lord, Mercury is ninth lord, conjoine with exalted fourth lord, Mars and is aspected by Saturn from fourt house. Antardasha and pratyantar dasha lord, Saturn is conjoine with fifth and tenth lord, Venus in fourth house and is aspectin th tenth house, fourth lord exalted Mars and Mercury. Antardash an pratyantar dasha lord, Saturn is placed in fourth house from mahadash lord, Mercury that is an again good position for getting favourabl results of dasha.

Notice the relationship of dasha lords with `fifth house/fifth lord, tenth house/tenth lord, Mars, Saturn and Mercury for education in civil engineering.

Notice the similarities in the birth horoscopes of case study no. 6 and 7.

Hence the role of Mars together with Saturn and Mercur i evident for career in civil engineering.

Mechanica Engineering

Chemical engineering is the branch of engineerin tha deal with the application of physical science to the process of convertin raw material or chemicals into more useful or valuable forms. Chemica engineering involves the design and maintenance of chemical proces for large-scale manufacture. Generally, we can say that chemica engineering is the technique used to convert materials or chemical into more useful forms whether they are being used in aerospace automobile, biomedical, electronic environment, space and militar applications. Therefore, the role of Moon along with the supportin planets Mars and Saturn and watery signs comes into play. In cas o chemical engineering, both fifth and tenth houses will com unde influence of Moon and watery signs. Taurus - Scorpio Cance - Capricorn and Virgo - Pisces are prominent axes in a horoscop fo studying chemical engineering and we have to check how many planet are placed along these axis.

In birth chart, fifth lord, Mars and tenth lord, Mercur ar conjoined in eight house, in the sign of Moon making a link of fift and tenth house. Fifth house is occupied by Moon and the Moo i involved in an exchange with fifth lord, Mars. Fifth lord, Mars is place in cancer, in the nakshatra of Saturn and is aspected by the Saturn Tenth lord, Mercuiy is placed in Cancer in association with fifth lor Mars, in the nakshatra of Saturn and is aspected by the Saturn. Thu both fifth and tenth houses comes under the influence of Moon, Mar and Saturn. From Mercury, the same influences are repeated Apar from this, six planets are associated with watery signs.

In navamsha chart, fifth house is occupied by Rahu and is aspecte by own lord, Saturn and Mars. Fifth lord, Saturn in placed in Cancer a sign of Moon while tenth house has Moon and the tenth lord, Mercur

is in the nakshatra of Mercury who is associated with the Sun and i aspected by Mars and Saturn. Thus tilting it towards technical. Th Sun and Mercury are in the nakshatras of Mars and Moon respectively Fifth house from Mercury is aspected by own lord, Saturn and Mars Fifth lord from Mercury is Saturn who is placed in the sign of Moon, in its own nakshatra and is aspected by Jupiter. In birth chart, the influence of Moon, Mars and Saturn together with Jupiter on fifth and tent houses from lagna and fifth house from Mercury points toward th education in Biochemistry or Microbiology. The investigatio o navamsha chart and dasha running at the time of admission in chemical engineering will settle the issue. In navamsha chart, fifth lord, Satur is placed in the lagna and is aspecting the Moon and Mars and tent house where tenth lord, Mercury is placed. Here the Jupiter is no associated with fifth house or fifth lord. Therefore the Jupiter becom unemployed as far as the role of fifth house is concerned. However Jupiter is aspecting the tenth house and its lord, Mercury. Jupiter i retrograde and is placed in the sign of Saturn. Jupiter is also aspecte by the Sun and Mars who is associated with the Moon. Thus Jupiter comes under the influence of Moon, Mars and Saturn and will conve the influence of these planets to the tenth house and tenth lord. O delineating the influences on fifth house or fifth lord of birth an navamsha charts, the common influence of Moon, Mars and Satur emerge out. Hence the education has to be chemical engineering

He joined M.Tech.(Chemical engineering), a five years integrate course on 10.08.1992 at 1 , Mumbai during the dasha of Moon/Sun/ Mercury. In birth chart, mahadasha lord, the Moon is ninth lord and is aspected by the lagna lord, Mars. Moon and Mars are settin up a rajayoga that is a perfect combination for higher education. Moon i significator for chemicals especially when aspecte b Mars Antardasha lord, the Sun is tenth lord and is in mutual aspect with fift lord, Jupiter. This is a tremendous rajayoga and a link of fifth and tent houses which is imperative for engineering/ vocational training. Sun is in the nakshatra of Mars who is aspecting the Moon, the chemica giver. Pratyantar dasha lord, Mercury is conjoined with tenth lord, th Sun and is aspected by the fifth lord, Jupiter which is again an idea combination for higher studies. Mercury is in the nakshatra of Moon Both, antardasha and pratyantar dasha lords, the Sun and Mercury are placed in tenth house from mahadasha lord, the Moon which is an extraordinary placement of dasha lords as per the principles of dash interpretation.

In navamsha chart, mahadasha lord, the Moon is associate with

Mars and is aspected by the fifth lord, Saturn. Antardasha lord, the Sun is placed in own sign, Leo which is tenth house from mahadash lord, the Moon. Pratyantar dasha lord, Mercury is tenth lord, placed in tent house and is aspected by the fifth lord, Saturn and Mars wh i associated with Moon.

Notice the relationship of dasha lords with fifth house/fifth lord, tenth house/tenth lord, Moon, Mars, and Saturn for education in chemical engineering.

Observations

Tenth lord Mercury from the mahadasha lord, the Moon is in th nakshatra of Moon.

Electrical and Electronic Engineering

Electrical engineering is engineering discipline that deal wit study of electricity, electrons and electromagnetism Electrica engineering sometimes also referred to as electrical and electroni engineering (EEE). This field now covers a number of sub-studie including those that deal with power, electronics, control systems signal processing and telecommunication The ter electrica engineering may or may not encompass electronic engineerin wher a distinction is made. Electrical engineering deals with the problem associated with large-scale electric systems such as power transmissio and motor control whereas electronic engineering deals with the stud of small-scale electronic systems including computers and integrate circuits. Electrical engineers are usually concerned with using electricity to transmit energy while electronic engineers are concerned with usin electricity to transmit information.

Electronics engineering is the branch of engineering that deal with the behaviour and movement of electrons and with electroni devices using transistors, microchips etc or electronic system an equipment. In many areas, electronics engineering is considere t be at the same level as electrical engineering, requiring tha mor general programmes be called electrical and electronic engineerin (EEE). Both define a broad field that encompasses many sub-field including those that deal with power, instrumentatio engineering telecommunications, and semiconductor circuit design amongs man other. Many universities have department of Electroni & Telecommunication engineering, Electronics Powe Engineering Electronics Instrumentation engineering and Electrical Electronic engineering etc.

Therefore, the role of Sun, Mars or Saturn and fiery signs come into play in case of electrical engineering. If we include the rol o Mercury (the messenger/karaka for communication) in above planets they will give inclination to study electronics engineering

Sun in the tenth house. There is also a connection of fifth and tent houses as fifth lord, Mars is placed in the tenth house. The influenc o the Sun and Mars together with the fiery signs on fifth house/fift lor in birth and Navamsha charts come into play prominently Thus th education has to be electrical engineering.

He joined B.E.(Electrical Engineering) at regional Engineerin College, Surat in 1988 after passing 12th class during the dash o Mars/Rahu/Mars. In birth chart, mahadasha and pratyantar dasha lord Mars is the exalted tenth lord and is aspecting the Sun and fifth lor Mercury who is placed in the sign of the Sun. Antardasha lord, Rahu i associated with the tenth lord Mars and is aspected by the Sun I navamsha chart, mahadasha and pratyantar dasha lord, Mar i th fifth lord and is placed with the Sun in the tenth house, a sig o Mercury. Anatardasha lord, Rahu is placed in the eighth hous wit exalted Jupiter and Venus. Rahu is placed in the eleventh hous fro the position of mahadasha lord Mars which is an excellent placemen of dasha lords for producing good results. The connectio of dash lords with fifth tenth houses, the Sun and Mars in birth and navamsh charts inclined this person to study electrical engineering

the karaka for electricity. Fifth lord, the Sun is placed in the fifth hous (own sign) and is in the nakshatra of Ketu who is associate wit exalted tenth lord Saturn, in the seventh house. Tenth lord Saturn i aspecting the Mercury, the third lord of communication and technica Mars. The link of third, fifth, tenth houses, the Sun, Mercury and Mars indicates education in the field of electronic an telecommunication engineering. Fifth and tenth lord from Mercury is Mars who is associated with third lord Mercury.

In navamsha chart, there is an exchange of fifth lord Saturn an tenth lord Mercury. Fifth lord, Saturn is placed with the Sun in th tenth house, an airy sign of Mercury that points towards electronic and telecommunication engineering.

She joined engineering college in the year 2004 during the dash of Mercury/Saturn/Saturn. In birth chart, mahadasha lord, Mercur is the third lord of communication, associated with the Mars an i aspected by the exalted tenth lord Saturn. Antardasha and pratyanta dasha lord, Saturn is the exalted tenth lord. The dasha lords are place in mutually kendra positions which is an excellent placement of dasha lords for producing excellent results. In navamsha chart, Mercur i the tenth lord whereas Saturn is the fifth lord, which is agai a prominent combination for higher studies in the field of engineering

Case Study 3(Electronics and Telecommunication Engineering)

This is the case study of a female born on 25th September 1980 at 08:10:00 hours (1ST) at Delhi. She completed Electronics and Telecommunication engineering degree course from a university at Singapore in 2002. She joined MBA course at Ahmedabad in June 2002 after completing her engineering and completed the management course successfully.

In birth chart, fifth house from lagna is Aquarius, an airy sign o Saturn. Fifth house is aspected by the third lord Jupiter who is place in Leo, a fiery sign of the Sun. The aspect of third lord on fifth hous may mean education in the field of communication if fifth hous supports it or education in the field of management which Jupiter ca give itself. Fifth lord Saturn is associated with the Sun, the karaka fo electricity and the Mercury, the karaka for communication The fift lord Saturn is in the Nakshatra of the Sun. Thus the link of third lor Jupiter, the Sun, Saturn and Mercury with fifth house of educatio indicates education in the field of electronics engineerin i th navamsha chart and dasha confirms the same promise. Fifth hous from Mercury is aspected by the Mars and the fifth lord from Mercur is Saturn which repeats same story.

In navamsha chart, fifth house comes under the influence of th Sun, Saturn and Mercury which indicates study in physics but the fift

lord Jupiter is placed in the fiery sign and is aspected by the Mar which clearly indicates the education in the field of electronic engineering.

She joined electronics engineering in the dasha of Ketu/Venus in a university at Singapore. In birth chart, mahadasha lord Ketu is place in the fourth house. The dispositor of Ketu is Saturn who is placed i the twelfth house of foreign country and is associated with the Sun and Mercury and is aspected by the tenth lord, the Moon which shows th education in the field of electronics engineering in a foreign country Antardasha lord, Venus is placed in the tenth house which indicat professional education. In navamsha chart, Ketu is placed in the tent house, in the sign of the Sun and is aspected by the fifth lord Jupite and twelfth lord of foreign country Venus. The dispositor of Ketu, th Sun is placed in the fifth house of education and is under the influenc of third lord Saturn and Mercury which shows the educatio in th field of electronics engineering in a foreign country.

Note: The link of Jupiter and Mercury with the fifth house of birth and navamsha charts also indicates education in managemen i.e MBA.

Compute Scienc an Engineerin

Computer engineering is a discipline that combines the element of both electronic engineering and computer science. Compute engineers are basically electronic engineers that have additiona training in the areas of software design and hardware softwar integration. They are involved in all aspects of computing, from th design of individual microprocessors, personal computer an supercomputers, to circuit design, as well as the integratio o computer systems into other kinds of systems. The common task o computer engineering is writing embedded software for real tim micro controllers, designing Very Large Scale Integratio (VLSI) o system on a chip, working with analog sensors, designin mixe signal circuit boards, and designing operating systems Compute engineers are also well suited for research in the field of robotics which relies on using computers together with other electrical systems

A new term Information Technology (IT) has also been introduce that is the study, design, development, implementation, suppor o management of computer based information systems, particularl software applications and computer hardware. A few of the jobs tha professionals perform are as under:

(i) Data Management
(ii) Computer Networking
(iii) Database Systems Design
(iv) Software Design
(v) Management Information Systems
(vi) Systems Management

Computers are largely used in business, science and technology medical sciences, engineering, entertainment, education and weathe forecasting etc.

Therefore, the role of Sun (electricity, electrons light) Mars or Saturn (engineering), Mercury (communication and data informatio processing) and Ketu (computer languages and programming

together with fiery signs or airy signs comes into play.

Let us check the role of these planets on the horoscop o a person who has studied electronics, computer science and complete Ph.D. in robotics.

Case Study - I

The person was born on 2nd January 1964 at 15:52:00 hours (1ST) at Bareilly. He completed B.E.(Electronics) from R.E.C. Durgapur, M. Tech. (Computer Science) from Roorkee University and Ph.D.(Robotics) from a foreign country. In July 2002, he started an institute of Information Technology in India.

Prominent features of horoscope

Lagna lord, Venus and ninth fk tenth lord, Saturn are combine

together in the ninth house. This is a major rajayoga of Parashara and is a combination for running an organisation and high status in life. Third lord of self-efforts and valour, the Moon is placed in own sign an making it powerful. Eleventh lord of achievements and ambition th Jupiter is placed in own sign and again good for success in life. Fifth lord of education, Mercury is conjoined with two kendra lords, fourt lord Sun and seventh lord Mars. This is again good rajayog in th eighth house and is an excellent combination for higher studie an research work as fifth lord Mercury joins it.

Study of Electronics, Computer Science and Research in Robotics

In birth chart, fifth lord, Mercury is conjoined with the Sun, Mar and Ketu in the eighth house, a fiery sign. Fifth house is also aspecte by the Jupiter who is in the nakshatra of Mercury and is aspecte b the Mars and Saturn; thus Jupiter will convey the influence of Mercury Mars and Saturn to the fifth house. Fifth house from Mercury is Aries a fiery sign of Mars. Fifth lord, Mars is conjoined with Sun, Mercur and Ketu in a fiery sign. Summing up the influences from lagn an Mercury, the influence of Sun, Mars, Mercury and Ketu togethe wit fiery sign is predominating. Besides, link of 5 - 10 houses also exist in the chart; Fifth lord, Mercury is in the nakshatra of Venus wh i conjoined with tenth lord, Saturn while tenth lord, Saturn is in th nakshatra of Mars who is conjoined with fifth lord, Mercury. Thus th education has to be Electronics and Computer Science.

In navamsha chart, fifth lord, Saturn is conjoined with Sun an Ketu in lagna, a sign of Mercury and is aspecting the tent hous where ninth lord, Venus is placed. Fifth lord from Mercury is agai Saturn which repeats same story. Thus navamsha chart confir th promise of birth chart.

He joined B.E.(Electronics) in 1982 at Regional Engineerin College, Durgapur during the dasha of Venus/Rahu/Saturn I birt chart, mahadasha lord, Venus is lagna lord and is conjoined with nint and tenth lord, Saturn in the ninth house. Antardasha lord, Rah i placed in second house, in the sign of Mercury and is aspecte by th Sun, Mercury, Mars and Ketu. Pratyantar dasha lord, Saturn is nint and tenth lord and is conjoined with lagna lord, Venus in the nint house. Notice the link of dasha lords with fifth, ninth and tenth house for admission in engineering. In navamsha chart, mahadash lord Venus is second and ninth lord and is involved in an exchang wit tenth lord, Mercury. Venus is aspected by the fifth lord Saturn thir lord Mars and fourth lord Jupiter. Antardasha lord, Rahu is place i

seventh house with eleventh lord, the Moon and is aspected by th Sun, Mars and Saturn. Pratyantar dasha lord, Saturn is fifth lord and is conjoined with the Sun and Ketu in the lagna, a sign of Mercury *Notice the connection of dasha lords with fifth house/fifth lord, tenth house/tenth lord, the Sun, Mars, Mercury and Ketu.*

He joined M.Tech.(Computer Science) in 1986 at Roorke University (Now 1) during the dasha of Venus/Jupiter/Moon. Role of mahadasha lord Venus has already been discussed. In birth chart Jupiter is eleventh lord and is placed in the eleventh house. Mahadash lord, Venus and antardasha lord, Jupiter are in 3 11 positions mutuall that is an excellent placement of dasha lords for producin extraordinary results. Jupiter is in the nakshatra of Mercury an i aspected by Mars and Saturn; thus comes under technical influences. Pratyantar dasha lord, the Moon is third lord and is placed in the third house. The Moon is aspected by the four planets viz. Mars, Venus Saturn and Jupiter and it becomes an excellent result producer I navamsha chart, antardasha lord, Jupiter is fourth lord, conjoined with third Mars and is aspecting the ninth lord Venus and tenth house Pratyantar dasha lord, the Moon is eleventh lord of gains an i receiving the influences of the Sun, Mars, Saturn and Ketu.

He joined as lecturer computer science in 1989 at Roorkee durin the dasha of Venus/Saturn. In birth chart, both are involved in a majo rajayoga formed in ninth house. In navamsha chart, Venus is placed is tenth house while Saturn is aspecting the tenth house.

He joined as assistant professor computer science in 199 a Regional Engineering College, Kurukshetra during the dasha of Venus/ Mercury. In birth chart, mahadasha lord, Venus is lagna lord and i conjoined with ninth and tenth lord, Saturn in the ninth house Antardasha lord, Mercury is fifth lord and is conjoined with the Sun Mars and Ketu. In navamsha chart, mahadasha lord Venus is placed in the tenth house while antardasha lord Mercury is tenth lord.

He joined research in Robotics in August 1997 in a foreign country during the dasha of Sun/Saturn/Venus. In birth chart, the Sun i conjoined with fifth lord of education (Mercury), twelfth lord of foreign country (Mars) and Ketu (Computer programming Robotics in th eighth house of research. Antardasha lord, Saturn is ninth and tent lord and is placed in ninth house. Pratyantar dasha lord, Venu i lagna lord and is conjoined with ninth and tenth lord, Saturn in ninth house. In navamsha chart, mahadasha lord, the Sun is twelfth lord of foreign country and is conjoined with fifth lord of education (Saturn and Ketu in lagna, a sign of Mercury. Antardasha lord, Saturn is fifth

lord and is conjoined with the Sun and Ketu. Pratyantar dasha lc"r'd, Venus is ninth lord and is placed in tenth house. *Notice the connection of dasha lords with fifth and twelfth house for education abroad.*

Case Study - 2

This is the case study of a woman born on 11th December 1985 at 06:32:00 hours (1ST) at Delhi. She joined B. Tech. (Computer Science) in 2003.

In birth chart, fifth lord, Jupiter is placed in the third house, in it sign of debilitation. Jupiter is exalted in navamsha chart and gaine some strength. Jupiter is in the sign of Saturn and is aspecte b Saturn and Mars who is conjoined with Ketu; Mars is connectin th

Jupiter with Ketu. Thus Jupiter comes under influence of Mars, Satur and Ketu. Jupiter is in the nakshatra of the Moon who is place i lagna, in the sign of Mars and is conjoined with Sun, Mercury, Venu and Saturn. Tenth lord, the Sun is conjoined with Mercury, Venus and Saturn in the sign of Mars. Here the situation has become somewha complicated. However the influences are appeared more toward th Sun, Mars, Mercury and Ketu if we take combined influences on fift and tenth houses. Let us check navamsha chart to confirm th influences of the Sun, Mercury, Mars or Saturn and Ketu.

In navamsha chart, fifth lord, Mars is aspecting the Sun and Ketu and the Sun and Ketu are receiving the aspect of Mercury from th sign of Sun. In this way, the fifth house has come under the combine influence of the Sun, Mars, Mercury and Ketu. Tenth house is occupie by Saturn. Tenth lord, Mercury is occupied the ninth house, a sign o Sun and is aspecting the Sun and Ketu. As result of which, the tent house has come under the combined influence of Sun, Mercury, Ket and Saturn. Hence the education has to be computer engineering

She joined computer engineering degree course in 2003 durin the dasha of Mercury/Rahu/Jupiter. In birth chart, mahadash lord Mercury is eleventh lord and is conjoined with tenth lord Sun, nint lord Moon, third lord Saturn and seventh lord Venus in the sign o Mars. Antardasha lord, Rahu is placed in sixth house, in Aries, a fier sign of Mars who is aspecting the fifth lord, Jupiter. Pratyantar dash lord, Jupiter is fifth lord, in navamsha chart, mahadasha lord, Mercur is tenth lord and is conjoined with Rahu in ninth house, Leo, a fier sign of the Sun. Mercury is aspecting the Sun and Ketu. Antardash lord, Rahu is conjoined with the tenth lord, Mercury in th nint house and is aspected by the ninth lord Sun. Pratyantar dasha lord Jupiter is exalted lagna lord and is aspecting the fifth lord, Mars *Notice the relationship of dasha lords with fifth house or fifth lord, tenth house or tenth lord, Sun, Mars or Saturn, Mercury and Ketu for education in computer engineering.*

Summing up the influenc o fifth house from lagna and Mercury and tenth house, the influenc o the Sun, Mercury, Ketu, Mars or Saturn is predominating

In navamsha chart, fifth house is aspected by the Moon from th sign of Mercury. Fifth lord, Jupiter is aspecting the Sun, Rahu an Venus. Here the direct link of Sun, Mars or Saturn, Mercury and Ket with fifth house or tenth house is missing, however, Saturn is aspectin the Mercury and Ketu. Now we have to check the connection of Sun, Mars or Saturn, Mercury and Ketu in dasha as birth chart is indicatin study in computer engineering.

He joined B.Tech. (Computer science) in 2005 during the dash of Venus/Saturn/Jupiter. In birth chart, mahadash lord, Venu i conjoined with Mercury in the tenth house. In navamsha chart, fifth house is occupie by the Sun and Ketu and is aspected by the Mars and Saturn Als Notice the importance of dasha of **Mercury/Ketu/Rahu** for admissio in **B**.Tech.(Information Technology).

Comparative study of horoscopes - The elder brothe ha started his career in teaching as he has Jupiter in the tenth hous o dashamsha chart whereas the younger had joined service in purel technical field as he has Mars in the tenth house of Dashamsha chart The younger is professionally sound and has excellent career wherea elder is unstable in his career. The dashamsha chart of younge i more powerful than the elder. Thus this case study confirm th importance of dashamsha chart in career.

Microbiology

Microbiology is the study of microorganisms, which are unicellular or cell-duster microscopic organisms. This includes eukaryote suc as fungi and protists, and prokaryotes such as bacteria and certai algaes. Viruses, though not strictly classified as living organisms ar also studied. Microbiology is a broad term that includes many branche like Bacteriology, Virology, Mycology, Parasitology ^ others Loui Pasteur and Robert Koch were best known for their outstandin breakthroughs in the field of Microbiology. Pasteu undertoo experiments to find where these bacteria came from, and was able t prove that they were introduced from the environment Hi experiments disproved the then widely held theory of spontaneou generation, thereby solidifying the microbiology's identity as biologica science. Pasteur is best known to the general public for showing ho to stop milk and wine from going sour. This process cam t b known as pasteurization. His experiments confirmed the germ theor of disease and he designed vaccines against several disease lik anthrax, fowl cholera and rabies. Robert Koch is best known for hi contribution to the germ theory of disease, which proved that specifi diseases were caused by specific pathogenic microorganisms

Therefore, the role of Jupiter (living organisms) togethe wit technical planets comes into play. Besides, several microscopic analysis and chemical processes are required to be used in microbiology therefore Rahu or Ketu and Moon or watery signs will play an importan role in study of Microbiology. Let us check the applicability of thes parameters on the horoscope of Louis Pasteur.

Notable feature of horoscope

In birth chart — There is a combination of lagna and tenth lor Mercury, ninth lord Venus and twelfth lord, the Sun in the fourt house. Out which, the Sun and Mercury are placed in own sign i navamsha chart. This combination confirms international fam an recognition. There is an another powerful rajayoga formed i th horoscope by the exchange of fourth lord, Jupiter and ninth lord Venus.

The Moon and Jupiter are conjoined in the ninth of luck an forming a magnificent gajakesari yoga. This yoga is also forme i navamsha chart, where the Moon and Jupiter are mutual aspect

There is an exchange of fifth and eighth lords which is a good fo research work but a bad combination for progeny.

In navamsha chart - There is a conjunction of lagna lord Sun

tenth lord Venus and twelfth lord Moon in lagna. This combinatio i aspected by the fifth lord, Jupiter. This is a powerful rajayog fo international fame and recognition as twelfth lord joined it.

The Sun is placed in own sign, Mercury in own sign, Mar i exalted and Jupiter is in Aquarius which is praised by Vrahamihira.

Study and Research in Microbiology

In birth chart, fifth house is occupied by exalted Mars and Rah and is aspected by its own lord, Saturn and Jupiter who is conjoine with exalted Moon. Thus confirms the applicability of our parameter of microbiology. The presence of Rahu in fifth house, in Moon' nakshatra with Mars and aspected by Jupiter inclined Pasteur to prob into bacteria and germs present in the environment. From Mercury fifth house has the same influences of Jupiter, Mars, Saturn, Rahu, Ketu and Moon.

In navamsha chart, Jupiter is fifth lord and is aspecte b th lagna lord, the Sun, tenth lord, Venus and the Moon, the karaka fo chemistiy. Rahu is placed in the tenth house and is indicatin wor related to bacteria, germs and viruses.

He completed the first test on process of pasteurization on 20 April 1862 during the dasha of Jupiter/Rahu/Moon Notic th significance of Rahu and the Moon. In this process, the milk is heate to kill the bacteria present in it.

In 1865, he was asked to help the silk industry in souther France, where there was an epidemic amongst the silkworms. With no experience of the subject, he identified parasitic infections as the caus and advocated that only disease free eggs should be selected Th industry was saved by his proper advice. He was then passing throug the dasha of Saturn/Saturn. Saturn is fifth lord and is in the nakshatra of Ketu and is aspecting the Rahu. See the role of Rahu and Ketu fo investigating epidemic and parasitic infections.

This confirm th applicability of our parameters of microbiology. The presence of Rahu and Moon in fifth house from lagna and the connection of Jupiter, Rahu - Ketu, Moon, Mars and Saturn with fifth house/fifth lord from Mercur inclined the Salk to probe into virus and medicines.

In navamsha chart, fifth house is aspected by the Mar an Saturn. Fifth lord Mercury is associated with exalted Jupiter and Ket and is aspected by the Moon. This confirms the promise of birth char and indicates research in microbiology (virus).

Major Life Events

He was educated at the City College of New York and go B.S degree in 1934 during the dasha of Jupiter/Venus. He earne a medical degree (M.D.) from New York University in 1939 durin th dasha of Jupiter/Mars. The role of dasha lords have alread bee discussed above. During the 1940s he worked at the Universit o Michigan and the University of Pittsburgh, studying influenz and during World War II, working on a flu vaccine for the U.S. Army. H got fellowship in epidemiology in 1942 during Saturn/Satur fo research on the influence of the Virus. He became research fellow and then research associate in the 1944 all in Saturn/Saturn Satur i yoga-karaka planet and is in the nakshatra of Rahu who is associate with the Moon in the fifth house of education and confirms the stud on virus. In 1946 he became assistant professor of epidemiolog (Saturn/Mercury). Mercury is the ninth lord of birth chart and fifth lord of navamsha chart. See the role of ninth and fifth lords for teaching

In the year 1952, he got success in his research during the dash of Saturn/Sun. Saturn is the fifth lord and the Sun is the eleventh lord of achievements. When he had tried vaccine over 100 childre an adults Dr. Salk announced his results in the journal of America Medical Association (March 28, 1953) in Saturn/Moon. Moon is tent lord. In 1953, during the dasha of Saturn/Mars, he announce confidently the success of his trail vaccine after a massive clinical trial One million American children had been vaccinated during precedin

year, half of them with vaccine of Salk which had proved 80 t 9 percent success.

In 1954, Salk became a national hero overnight during the dash of Saturn/Rahu. The role dasha lord has already discussed above

Period of humiliation — Mercury/Ketu (1963), it was the period **that** Salk suffered at the hands of his rival Albert Sabin, a Polis scientist as vaccine of Sabin was cheaper, could be given orally an could be refrigerated.

Salk died on June 24, 1995 during the dasha of Venus/Jupiter One is the eighth lord and the other the sixth.

Biotechnolog

Biotechnology is the fusion of biology and technology Biotechnology is the application of biological technique use t manufacture products, which are required to improve the quality o human life. Earlier biotechnologists were farmers who devise improved species of plants and animals by using the technique o cross pollenlzation or cross breeding. These days, biotechnolog ha expanded in sophistication, scope and applicability. Biotechnologie are methods and techniques which involve use of microorganisms living organisms, such as ceils, bacteria, yeasts, biological substance as tools, such as genes and enzymes, to perform specific industrial o manufacturing process. Applications include the production of certain drugs, synthetic hormones, and bulk foodstuff as well a th bioconversion of organic waste and the use of geneticall altere bacteria in the cleanup of oil spills. Thus biotechnolog i th application of science and technology to living organisms.

Therefore, the role of strong Jupiter, the Jeeva (living organisms together with technical planets i.e. Saturn and Mars comes into pla in the study of biotechnology. Besides, certain chemical processe ar also being used in biotechnology. Therefore, importanc of water signs or the Moon can not be ignored. Let us take some case studie before giving the final shape to these probable astrological parameters

In birth Chart, fifth house from Lagna is Scorpio, a watery sign o Mars and is aspected by the Saturn. Fifth lord, Mars is in own nakshatr and is associated with Saturn. The influence of Saturn an Mar indicates technical education. Here the Jupiter, the indicator of biology is not associated either with the fifth house or with the fifth lord fro Lagna. The education could be in technical field other than the biolog group if the role of Jupiter does not come into play from Mercur (vidya karaka) and in dasha and other related divisional charts Fro Mercury, the fifth house has Jupiter which is in the nakshatra of Rahu Fifth lord from Mercury is Venus and is associated with Rahu, Moon and Mercury. Venus is in the nakshatra of Mars and is aspecte by th Saturn and Jupiter. Thus the influence of Jupiter together Mars, Satur and Moon points towards the education in biotechnology

In navamsha chart, fifth house is Aries owned by Mars an i aspected by powerful Jupiter, Saturn, and Mars. Fifth lord, Mar i aspecting the Moon and Jupiter and is itself being aspecte b th Saturn. Thus confirms the study in biotechnology.

The role Jupiter has already been discussed. In birth chart, antardash and pratyantar dasha lord, Mercury is associated with Moon, Venu and Rahu and is aspected by Jupiter and Saturn. Mercury is als placed in the ninth house from mahadasha lord, Jupiter that is a excellent placement of dasha lord for producing excellent results I navamsha chart, antardasha and pratyantar dasha lord, Mercur i tenth lord. In the last quarter of 2005, he joined a Research organisatio as Research Associate in Jupiter/Ketu. Role of Jupiter has already bee discussed. In birth chart, Ketu is placed in Sagittarius, a sign of Jupiter and is aspected by Mars, Moon, Mercury and Venus. Ketu and Jupite are placed in 3 II positions, which is a good placemen of dash lords. In navamsha chart, Ketu is placed in tenth house togethe wit fifth lord, Mars.

Biochemistry is the study of the chemical processe an transformations in living organisms. Biochemistiy deals wit th structure and function of cellular components, such as proteins carbohydrates, lipids, nucleic acids and other biomolecules. Therefore the role of Moon and watery signs together with influence of Jupite comes into play. In case of biochemistry, the influence of Moon an watery signs will predominate in relationship with Jupiter, the livin organism.

DOCTORS

Education about Diseases

by Dr. Vishal Wadhwa

In earlier chapters we have learned to use significations of planets different rashi's and the twelve houses for deciding the patter o education of a person. However, his hobbies and the short-ter courses he ventures into, to add a new dimension and mor ofte than not to relive his youthful days, can be a source of confusion if we solely rely on the birth horoscope with its divisions. A respite can b attained in most cases by analyzing from the dasha running a th time of commencement of the course.

Though this field requires more probing by astrology aspirants till than let us take help of table no. 1, which is an extende an modified version of the table given earlier by Mr. K.N. Rao in *Journal of Astrology* Year 2001; Oct-Dec issue. In order to read from the tabl the various choices that the planet has to offer, it would be wise to ge educated in the method of determining the predominant influence o the planet concerned: technical, semi-technical or non-technical

Mr. Rao suggests influences on education giving planet b weighed as thus:

(i) Saturn, Mars, Sun, Rahu and Ketu impart technical influenc t the educational pattern, whereas Moon, Venus, Mercur an Jupiter if unafflicted are non-technical influences.

(ii) Debilitated and retrograde planets also impart technical influence

(iii) The following rashi are technical in nature: Aries, Gemini Leo Virgo and Sagittarius, Capricorn and Aquarius, while the rest ar non-technical.

To decide whether a planet will behave technical or otherwis sum up the influences of the rashi and nakshatra it is placed in an also the influence rendered by the planets conjunct or aspectin it

Let us see what are the various influences on educatio givin areas, which make a person study medicine as an M.B.B.S. or in it alternative forms like ayurveda or homeopathy. Since doctor stud

diseases, a connection of sixth (disease)/ eighth (sudden mishap) and or the twelfth (hospital) house should be there with the educatio giving areas. Additionally, a strong Jupiter (which signifies *Jeev vigyan,* a science dealing with living beings like zoology or human anatomy when under technical influence) will come into play along with Ket (signifactor for medical practitioner) and the Sun (the father of suc knowledge). Additionally an affliction to Moon by malefics, which ha been referred to as 'doctor's drugged Moon', by Mr. Rao, can also b seen.

Let us analyze few examples in detail to understand this.

Case Study - I

Birth details *- April 08, 1976; 14:20 hours 1ST; Delhi*
Vimshottari dasha balance *- Jupiter upto 18.09.1977*
Dasha at the time of admission *- Saturn/Jupiter*

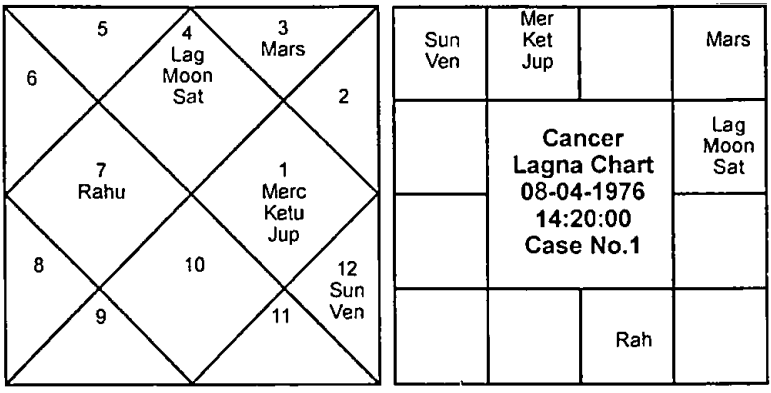
First case is of a M.B.B.S. doctor, practising Microbiology, his fifth lord Mars is placed along six-twelve axis; it is in nakshatra of Rahu. Technical Mars represents science, which without Jupiter is engineerin or mechanical work. Mars has exchanged places with Mercury, whic brings calculation (mathematics) to our list of subjects alon wit science. Fifth lord from Mercury is Sun and it is again placed in th twelfth house, fifth house from Mercury receives an aspect of Jupiter (which is under technical influence), this tilts the influences in favour of medicine.

In navamsha, fifth lord is Moon (under semi-technical influence) in conjunction with Saturn (semi-technical), the twelfth lord. So her Moon would mean medical related field. Fifth house from Mercur receives aspect of Mars (eighth lord) and Venus is placed there Fifth lord is Sun (under technical influence), it is aspected by Jupiter, th twelfth lord from Mercury.

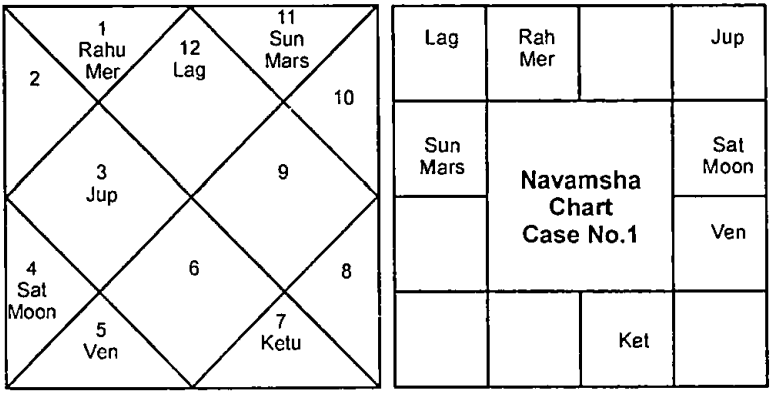
Now see what repeats in lagna and Navamsha, role of twelft house, technical influence, science, Jupiter and Sun answer is clear.

He has passed through the mahadasha of Saturn at the time o education in school. Vargottama Saturn, placed in lagna of birth char and fifth house of navamsha, can promote education and which it did as he almost unexpectedly got a good rank in entrance examinatio in his second attempt. Dasha at that time was Saturn-Jupiter. Jupite as the sixth lord conjunct with twelfth lord in tenth house is good fo studying medicine, and its ninth lordship gave him that extra boos which is required to clear such exams.

Confusion can creep in when we see repetitive connectio o



Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
28° 29'	25° 07'	02° 08'	16° 14'	02° 18'	09° 29'	06° 28'	02° 37'	20° 31'



Mars with fifth and sixth house indicating education in any o th armed forces. However for such a profession fiery rashi's (Aries, Leo Sagittarius) should predominate whereas here airy and watery rashi' predominate. Interestingly this person had an inclination to join arm but was not allowed by his parents.

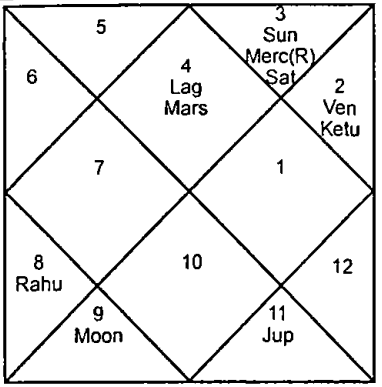
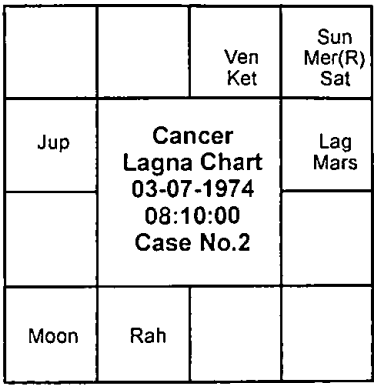
Birth details *- July 03, 1974; 08:10 hours 1ST; Delhi.*

Vimshottari dasha balance *- Jupiter upto 22.08.1980*

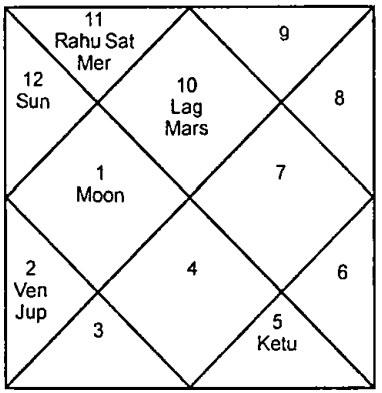
Dasha at the time of admission *- Venus/Jupiter.*

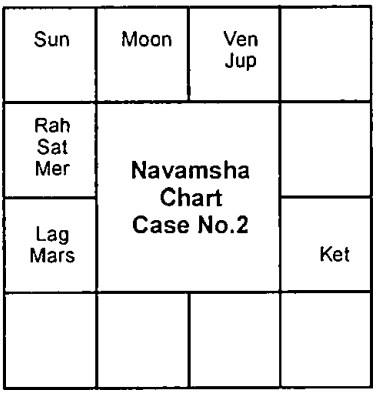
This is a horoscope of a practising E.N.T. surgeon, his fifth lord i Mars is placed in lagna (it is debilitated, so it is under technica influence) and it aspects sixth lord. It is placed in nakshatra of Mercury the twelfth lord. Rahu, a technical planet is placed in the fifth hous





Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
21° 15'	17° 18'	01° 38'	21° 17'	13° 48'	24° 19'	14° 55'	15° 10'	24° 43'





and the house is aspected by Venus. Fifth lord from Mercury is Venus; it is placed in twelfth house with Ketu but in a non-technical rashi Moon is drugged. Till now sixth and twelfth houses have come int fray and technical influence in partially present and there is influenc of Venus.

Fifth lord of Navamsha, Venus is conjunct with twelfth lord Jupiter but placed in a non-technical sign. Fifth lord from Mercury is Mercury and is under influence of two technical planets one of which is th twelfth lord. Again here twelfth house has come into picture bu a mixed technical and non-technical influence is present.

He has passed through the dasha of Venus at the time of school days; a strong Venus by virtue of placement in its own hous an vargottama is connected with the fifth house, this signifies goo education. Venus is semi-technical in lagna and non-technica i

Navamsha, it is under the influence of Jupiter and Ketu, bot th signifactors of medicinal knowledge but if we refer to the table to se the significations it creates confusion, as semi-technical Venus doe not support education in medical field. Analyse the fifth house fro Venus and we can see only technical influences.

To remove the confusion let us see the antardasha, it is importan to note that in the mahadasha of a planet with long dasha period a single or two successive antardasha's can allow a different trend This person got the antardasha of Jupiter the sixth lord, Saturn the eight lord in twelfth house and Mercury the twelfth lord and all of the under technical influence, which helped him complete his education Venusian influence did not influence his education but mad hi listen to music and dance to its beats.

This M.D. graduate after completing M.B.B.S. went to U.S.A. t pursue a career in medicine. His fifth lord Moon is placed in a non technical sign but in nakshatra of Saturn and aspected by Saturn (th twelfth lord). Look in the table under section of Moon (semi-technical) we find a paramedical education. Now to this add technical influenc of Jupiter and we get close to medicine. Fifth lord from Mercur i Mercury itself (under technical influence); it is conjunct with Ketu an aspected by Mars from the twelfth house, Mars is also twelft lor from Mercury. Fifth house from Mercury has again aspect of earlie discussed Jupiter, Moon combination. So there is mixtur o mathematics (from technical Mercury) and medicine (from technica Moon and Jupiter).

In Navamsha the fifth lord Saturn is under technical influence though it is debilitated but it protects fifth house signification b aspecting it. Technically influenced Saturn can give Engineerin o geology but it is under influence of technical Jupiter, Sun and Mercur (which brings in influence of eighth and twelfth houses also). Thu again shifting the focus from engineering to biology dealin wit disease. Fifth from Mercury is under similar influence.

Dasha at the time of entrance examination was Mercury-Saturn In lagna fifth lord from Saturn is Venus, which is confusing Bu i Navamsha that influence vanishes and only the other promis in th birth horoscope prevails.

This is a horoscope of an ophthalmologist. His fifth lord Venus which is also the twelfth lord, is under technical influence. Fifth hous has got four planets creating a predominant technical influence S we have got education of a technical Venus and multiple influence from Sun, Mercury, Moon and Rahu. Fifth house from Mercur i aspected by Venus again. Fifth lord Saturn is semi-technica an aspected by Jupiter (*Jeev vigyari).*

In Navamsha fifth lord Saturn is placed in twelfth house and i under technical influence. Technical Jupiter and Sun influence the fift house. Influences that repeat are Saturn (technical, mechanical work)

Jupiter (management or zoology), Sun (management, physics, math and medicine) and twelfth house (abroad, hospital).

During his entrance examination he was passing through Rahu Moon. From both dasha and antardasha lords fifth lord is Saturn and i is under influence of Jupiter in lagna chart. So what repeats is influenc of Saturn and Jupiter, which is technical education in managemen o *jeev vigyan.* Influence of sixth, eighth and twelfth house point towards medicine. Venus aspects fifth house from dasha lords I Navamsha, Jupiter aspects both these dasha lords as well as fifth from them. Because of this, the influence of Venus on education will be o biology and later ophthalmology.

Vimshottari dasha balance - *Moon upto 21.05.1977*
Dasha at the time of admission - *Rahu/Mercury*

This horoscope has been taken up to show how difficult i i sometimes to interpret the educational pattern of a person with suc bewildering array of subjects and equally large number of option a person can have as a hobby. This person is M.D. in Microbiology a good singer, passionate guitar player and still more, a novic a carpentry. His fifth lord is Venus (also the twelfth lord); it is conjunc with a technical planet and in a technical nakshatra. So it will behav technically. Fifth house is aspected by technical Jupiter the tenth lor (vocational course) and sixth lord of diseases, Mars.

Here we need to clear our thoughts as to how a planet work under different influences. For example Venus is technical, whethe i is under the influence of Sun, Saturn or Mars. Then does influenc o

technical Jupiter turn it into biology, Mars and Saturn into computer and so on, I think we need to work on this.

Contradiction in this case arises when we analyse the fifth lor from Mercury and we find pure non-technical influence of Moon an Venus (artistic planets), this has given him the above-mentione hobbies. In Navamsha also there is again a mixture of artistic an technical influences.

Usually analysis of the dasha at the time of selection help t solve such queries but in this case it is difficult as the dasha runnin a the time of selection was Rahu-Mercury.

Study Abroad

Case Study I

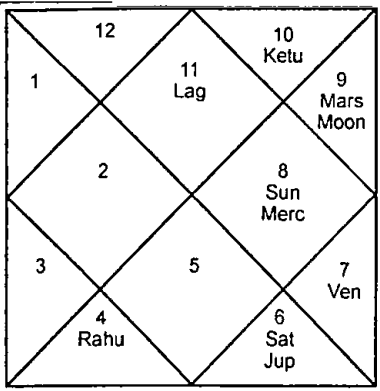
This is the case study of an engineering student to whom I have given a prediction in March 1999 for his selection in Bachelor of engineering (Civil Engineering). The case study for his selection has also been published in one of the issue of Journal of Astrology under the title "Engineering Vocation - A case study of prediction". He has successfully completed Bachelor of Engineering (Civil Engineering) in India. In May 2003, father of this boy again contacted me to give astrological guidance for the selection of his son in a Master degree course in civil engineering in USA. As told by him, the boy has already been applied for selection in Master of Engineering in USA. At that time, I used a different technique for predicting the education in a foreign country and I told him that his son is definitely going to be selected in engineering course in USA. The boy was selected in August 2003 as predicted by me. My technique was based on the analysis of

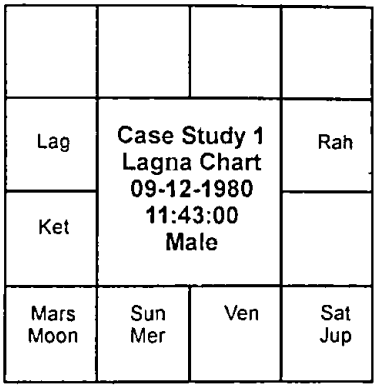
1. Birth Chart
2. Varshaphala (Tajak)
3. Yogini dasha

Now, 1 would like to explain the reasons why did 1 choos thi two-fold analysis based on Yogini dasha and Varshphala(Tajak). 1 ha occasions to analyse many horoscopes prepared by the astrologer o Uttaranchal, Himachal and Jammu. What similarities 1 have foun i the horoscopes prepared by Uttaranchal astrologers, they prepare following charts and Yogini dasha in almost every horoscope -

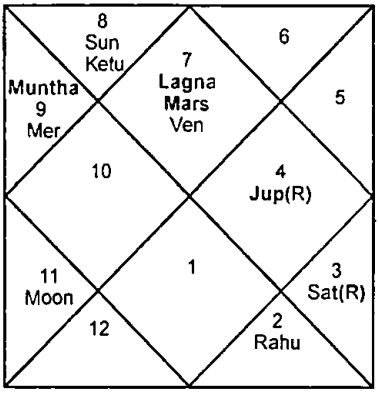
1. Birth Chart (with degrees of planets and Lagna)
2. Yogini Dasha (in many cases, the Yogini dash ha bee mentioned for all the three cycles). It means Yogini dasha shoul be repeated after completion of previous cycle. Thus, th firs cycle will run upto 36 years, second cycle upto 72 year an third upto 108 years.
3. Varshaphala (with Muntha and Varshesh).

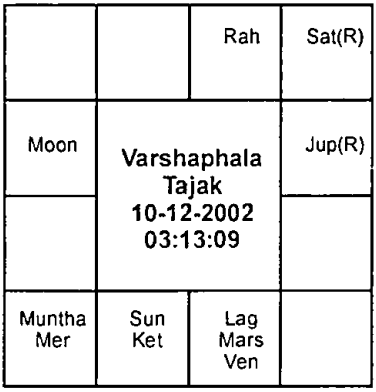
One day, I asked an officer in my unit who knows astrolog als





Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
06° 52'	23° 45'	12° 44'	19° 32'	11° 39'	13° 35'	25° 12'	14° 46'	18° 33'





belongs to Uttaranchal, Why the astrologers of UP hills prepar Varshaphala along with Birth chart and Yogini dasha? He gav m enough hints for interpreting the results of Yogini dash usin Varshaphala, its progression based on the lords of Yoginis afte completion of first and second cycles and progression of Lagna usin different reference points for remaining two cycles.

Now see the peculiarities of Varshaphala: ·

1. Muntha (birth lagna in progression).
2. Lagna of Varshaphala (This is based on the solar return). It will give you a different reference point which is based on attainin the same longitude by the transiting Sun as the natal Sun i a horoscope.
3. Progression of planets as per their natural movemen wit

reference to progressed lagna (Muntha) and Lagna at the time of solar return.

Therefore, the scheme of analysis of Birth chart and Varshaphal using Yogini dasha would be as under: -

1. Read the results of Yogini dasha in the birth chart.
2. Interpret the results of Yogini dasha with reference to Lagn o Varshaphala, Muntha and Munthesh. Draw your final conclusion Use Parashari aspects of planets and no need to calculat separate Yogini dasha for Varshaphala.
3. Do it for first cycle of Yogini dasha only or upto the age 36 years For interpretation of results of Yogini dasha for the secon an third cycles, lords of Yoginis are required to be progresse i different ways.

Let us analyse the chart of this boy using above technique

The houses to be considered are; fifth house (education) tent house (professional study), third house (movement from residence) seventh house (residence abroad), ninth house (long journey an twelfth house (foreign country).

He got selected for engineering course in USA and left India o 02.08.2003 in the Yogini dasha of Bhramari(Mars)/Ulka(Saturn) runnin from 10.04.2003 to 15.11.2003. In Birth chart, Mars is third and tent lord and is aspecting the fifth house of education. Saturn is twelft lord of foreign country and is aspecting the fifth house and fifth lord (Mercury) of education. From mahadasha lord Mars, Mars is fifth and twelfth lord and Saturn is third lord and is aspecting the sevent an twelfth houses. Mars and Saturn are mutually placed in 4/10 positio which is an excellent position of dasha lords for giving favourabl results.

In Varshaphala, Mars is seventh lord and is placed in the lagn with lagna lord, Venus. Saturn is fifth lord (education), placed in th ninth house (long journey) and is receiving the aspect of twelfth lor (foreign country), Mercury from third house (movemen fro residence). Mars and Saturn are mutually placed in 5/9 position whic is again an excellent placement of dasha lords for producing favourabl results.

From Muntha (Sagittarius), Mars is the fifth and twelft lord Saturn is the third lord, placed in seventh and is aspecting the nint house and tenth lord, Mercury.

From Munthesh (Jupiter), Mars is again the fifth lord while Saturn is placed in twelfth house and is aspected by the twelfth lord, Mercury

Notice the connection of dasha lords with fifth house and twelfth

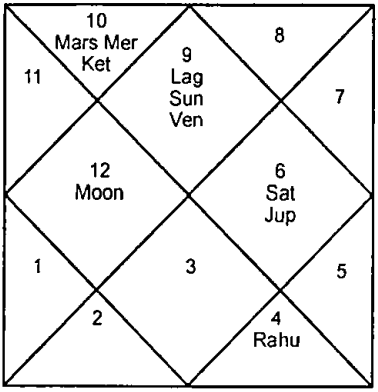
house from Varshaphala Lagna, Muntha and Munthesh.

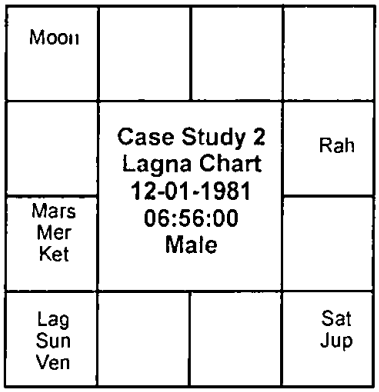
Case Study 2

This chart belongs to a MBA student. I have given similar type of prediction to this boy also using same technique in 2003. He got selected for Master of Business Administration(MBA) course in UK after completing his graduation in commerce(B.Com.) and left India on 27.07.2003. He was then running the Yogini dasha of Sankata(Rahu)/Siddha(Venus) - from 07.11.2002 to 29.05.2004.

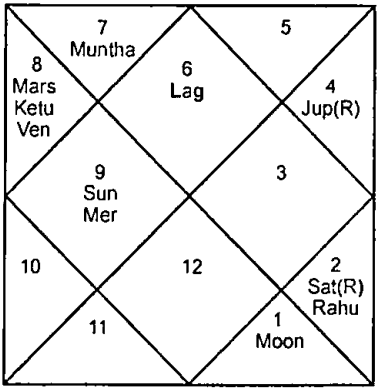
In Birth chart, Rahu is aspected by Mars (fifth and twelfth lord and Mercury (seventh and tenth lord). Venus is associated with nint lord (the Sun).

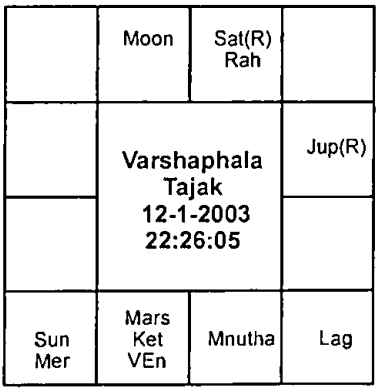
In Varshaphala, Rahu, is placed in ninth house with fifth lor (Saturn) and is aspected by the ninth lord (Venus) and thir lor





Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn	Rahu
22° 32'	28° 10'	10° 19'	15° 56'	05° 24'	16° 32'	07° 22'	16° 09'	17° 24'





(Mars). Venus is ninth lord and is aspected by the fifth lord (Saturn) an exalted Jupiter. *Also notice the placement of twelfth lord (the Sun) i fourth house with Lagna lord (Mercury).*

From Muntha (Libra), Rahu is again associated with fifth lor (Saturn). Venus is aspected by fifth lord (Saturn) and exalted Jupiter

From Munthesh (Venus), Rahu is placed in seventh house and i aspected by the seventh and twelfth lord (Venus). Venus is twelft lord and aspected by the exalted fifth lord (Jupiter).

Notice the connection of dasha lords with fifth, ninth and twelfth houses.
